A GUILTY COUPLE.

A Prominent Boston Lawyer and a Married Woman Surprised in a Room.

The Injured Husband Made the Discovery and Will Now Seek a Divorce.

The Wife Regarded as the Most Beautiful Woman in the Granite State.

NEW YORK, April 15.—The World this morning says that Charles L. Lindsey, one of the proprietors of the Parker house, one of Boston's best known hotels, late on the night of April 3 found his wife, Mary Hill Lindsey, in a room in the Imperial hotel, in this city, in company with Fletcher Ladd, a prominent lawyer of the city of culture. The guilty couple were very much taken aback when the injured husband forced his way into the room they occupied and Ladd, evidently expecting violence, stood with folded arms awaiting his fate, but Mr. Lindsey simply said: "I think I have the evidence I need" and left the room. It is believed that he will apply for a divorce.

All the parties concerned are highly connected in New England and are particularly well known in New Hampshire, where the main branches of the family live. Mr. Lindsey is a son of John Lindsey, who for many years was proprietor of the noted Lancaster house in the White mountains. Mrs. Lindsey's maiden name was Mary Hill. She was born in Concord, N. H. Her father was a well-known merchant. Miss Hill was by general consent regarded as the most beautiful woman in the Granite state. She is now about 30 years old.

Fletcher Ladd is the eldest son of the late William S. Ladd, of Lancaster, once chief justice of the supreme court of New Hampshire, and known as one of the most able justices ever produced by the Granite state. Fletcher Ladd has already made a reputation at the Boston bar as a young lawyer of learning. He is plain looking and unassuming, as striking a contrast as possible to Mr. Lindsey, who is quite handsome.

A PROMISED INFLECTION.

The Blaine-Nevis Love Letters to Be Published Soon.

NEW YORK, April 15.—Mrs. James G. Blaine, Jr., has by no means abandoned her determination to publish the love letters which passed between her husband and herself. It has been intimated that Secretary Blaine has the missives in his possession, but Col. Nevis is authority for the statement that he has not. Mrs. Blaine, Jr., is stopping at the New York hotel, with her parents, Col. and Mrs. Nevis. She declined to see a reporter, stating that she was too tired to talk, but said her father would speak for her.

Col. Nevis laughed at the idea of his daughter selling the letters. He promised to give to the press, "I suppose Secretary Blaine would be glad to get those letters," he said. "My daughter has been sick since she returned and that is the reason they have not been published. Monday morning the first time in five weeks that my daughter has left her room. In the course of the last few days the letters to the press in the same manner that Secretary Blaine gave out his letter and we hope they will be as widely published."

NUNS SEIZED IN DAHOMY.

May Be Obligated to Witness the Murder of Their Converts.

PARIS, April 15.—The nuns arrested at Whydah by order of King Behanzin are part of a colony sent out some time ago with the view of assisting in educational and missionary work among the natives of Dahomey. The latest advices show that the Europeans at Whydah have been expecting trouble for some time and that the nuns had been warned of their danger. They persisted, however, in remaining.

It is said that a number of native scholars and converts have also been carried off to Abomey, and that the nuns may be compelled to witness the cruel sacrifice of those endeared to them. It is not believed that the king will spare any of his European prisoners, and that they will probably be held for ransom.

SNOW IN NEW YORK.

A Heavy Rain Storm Which Changed to Snow and Hail.

NEW YORK, April 15.—The heavy rainstorm, which began in this city about 4 o'clock yesterday, continued until shortly after midnight when it turned to snow and hail, which kept on falling until 8 o'clock this morning. The snow gradually melted, consequently the interruption to traffic was slight. Although a few minor accidents from trifling collisions on the river have reported, nothing serious has so far been announced. Today the weather is clearing with a cold northerly wind.

The Hatchet Buried.

ROME, April 15.—The newspapers of this morning contained editorials on the settlement of the New Orleans difficulty. They are unanimous in expressing satisfaction with the terms offered by the United States as given out and the acceptance of the same by Italy, and the hope is expressed that the friendly relations now resumed will never be interrupted in the future.

Short in His Accounts.

BUFFALO, N. Y., April 15.—A special from Suspension Bridge says that E. B. Towne, cashier of the New York Central freight office at that place, disappeared at noon on Wednesday and it is feared there is a shortage in his accounts. Two auditors are checking up his books. It is said that Towne has been speculating in real estate.

The New Chilean Minister.

VALPARAISO, April 15.—Senator Blais-Gana, who was offered a few days since the post of minister to Washington, has accepted the office. Senator Gana is considered one of the ablest diplomats in Chile and is possessed of a fine natural magnetism. It is believed that he will create a favorable impression at Washington.

Snow in New Jersey.

NEWARK, N. J., April 15.—Three inches of snow fell during the night. Much damage has been done in the farming section in this vicinity.

GRAY STANDS ASIDE.

The Indiana Man Agrees to Support Cleveland's Cause.

INDIANAPOLIS, Ind., April 15.—Important results were reached last night at a conference of all the leading Cleveland and Gray representatives of Indiana with the Democratic state central committee and the executive committee of the state convention and the adoption of a resolution endorsing Cleveland's administration, declaring that tariff reform should be the leading issue of the coming campaign, and upon that issue that Mr. Cleveland would be the logical candidate for the Chicago convention, also testifying to the confidence felt for Governor Gray, that he was worthy of the highest honors, and that in the event of the Chicago convention failing to nominate Mr. Cleveland, that the Indiana delegates endeavor to effect Gray's nomination by every honorable effort within their power.

THE VENEZUELAN WAR.

Palacio's Troops Have Suffered Several Defeats.

CARACAS, Venezuela, April 15.—The revolutionists have had a stroke of good fortune in the capture of two government ships which were loaded with arms and munitions of war for the government forces. As these articles were very scarce in the revolutionist camp it can readily be seen that they are a perfect god-send.

The insurgents will soon begin their march toward this city. Shortly after the capture of the government vessels the revolutionists were further rejoiced to learn that in two skirmishes with Palacio's troops their advance guard had won decided victories. The news of these events has since caused a feeling of uneasiness in Caracas among Palacio's partisans and strengthened the cause of his enemies.

Hoarding His Money.

PANAMA, April 15.—Advices from Venezuela state that the supreme court there is gaining in strength. The Caracas discontent prevails with Palacio, owing to the fact that he is hoarding money raised by forced loans, and is letting his soldiers and officers go unpaid. This has added to the popular belief that Palacio anticipates defeat and is saving money for his maintenance abroad.

A LONG ELECTRIC ROAD.

Survey Made For a Line Between Chicago and St. Louis.

ST. LOUIS, April 15.—The survey of the Chicago & St. Louis Electric rail way was completed yesterday. The total length of the route is 252 miles, the longest of any electric line in the world. The survey was made on an air line and is regarded as an excellent one. The route will pass through a number of towns and but three or four houses in the entire distance. There are but few obstructions to the laying of a cable and a considerable grading. The right-of-way along the whole route has been secured.

THE FLOOD AT WINNIEP.

Tracks Under Water and the Red River Still Rising.

WINNEP, Man., April 15.—The water continued to rise here all day yesterday and is expected to reach its peak today. The water is also rising in the Red river, which is expected to reach its peak today. The water is also rising in the Red river, which is expected to reach its peak today. The water is also rising in the Red river, which is expected to reach its peak today.

HALL WILL WIN IT.

Sullivan Thinks Fitzsimmons' Goose is Cooked.

ST. LOUIS, April 15.—Of the Hall and Fitzsimmons fight Sullivan yesterday said: "If Fitz fights Hall at catchweights his goose is cooked. Hall has a longer reach than Fitz, punches harder and is a more powerful fighter. He will be a fair fight, but Hall will win it. The scheme to pull off the fight the same week with mine is a good one."

Wheat Land Submerged.

CHARLESTON, Mo., April 15.—The Ohio and Mississippi rivers are rising rapidly and fears of a general and disastrous overflow are entertained. Millions of acres of wheat land are now under water to a depth varying from one to ten feet, and hundreds of cattle are said to have perished.

A Novel Project.

WASHINGTON, April 15.—An electric vehicle, in which there was all the interest which attached to a novelty in ordnance material, has been tested at Indian Head with satisfactory results. Four shells were fired at two plates, one of which was a 24-inch steel deck-plate and the other a 3-inch iron armor-plate. All the shells penetrated the targets.

Sheriff and Editor Fight.

SAN ANGELO, Tex., April 15.—An attack was made on F. B. Pierce, editor of the San Angelo Enterprise, in his office Wednesday night by J. Willis Johnson, sheriff of Tom Green county. Editor Pierce was badly beaten. The difficulty was brought about by an article in the Enterprise reflecting on Sheriff Johnson's honor.

His Impression Was Correct.

MEMPHIS, Tenn., April 15.—The boiler of Hitchcock's sawmill near here exploded yesterday, instantly killing Engineer John Smith. Smith was blown fifty feet in the air. He remarked a few moments before that he had an impression that he would be killed. Three other employees of the mill were badly injured.

A Noted Forger Killed.

NEW YORK, April 15.—George Wilkes, well known as the "king of forgers," died last night at Bellevue hospital with a fractured skull. Wilkes was found unconscious on the streets. It is not known how he received his injuries.

Snow in New Jersey.

NEWARK, N. J., April 15.—Three inches of snow fell during the night. Much damage has been done in the farming section in this vicinity.

AID FOR THE FAIR.

An Appeal to the House Committee For Seven Millions For the World's Fair.

Gen. St. Clair Says the Local Corporation Has Raised Ten Millions as It Agreed.

The Exposition Not a Chicago Fair or Illinois Show, But a National Undertaking.

WASHINGTON, April 15.—Gen. St. Clair, Francis W. Breed, of Massachusetts and J. G. Harris, of Virginia, members of the national commission of the World's fair, were heard before the committee of the House yesterday in support of the proposed loan or appropriation of \$7,000,000 by the government in aid of the fair. Gen. St. Clair argued as to the duty and responsibility of the government in connection with the fair.

THE FLORIDA REPUBLICANS.

They Say All Elections in Florida Are Full of Frauds.

TALLAHASSEE, Fla., April 15.—The Republican state convention which was held Wednesday remained in session all night, and a breezy and boisterous time was the distinguishing character of the proceedings. The delegates to the national convention elected are as follows: Rev. Jos. E. Lee (colored), of Jacksonville; E. Grumby, of Tampa; Jas. A. Mann (colored), of Pensacola; and John Gay, of St. Augustine, for the state at large; for congressional districts, Archer (colored), of Monticello; H. S. Chubb, of Orange county; Rev. H. S. Coleman (colored), of Gainesville; J. S. Her Carr, of Ocala.

SERIOUS CHARGES MADE.

Capt. Bourke Charged With Aids to Ornelly in Texas.

NEW YORK, April 15.—A special to the Herald from Washington says that Lawyer R. L. Summerlin, of San Antonio, Tex., is in the city and announces that he is seeking justice for the family of Garza, the revolutionist, who held good many others on the Texas border, who claim that they have been maltreated by the United States troops under Capt. John G. Bourke.

ABOUT TO RETALIATE.

Canada Will Strike a Blow at New.

OTTAWA, Ont., April 15.—It now appears that the Dominion government have abandoned all hope of effecting a reconciliation with Newfoundland, and in order to enable them to retaliate against the aggressive policy which the Newfoundland government has directed against Canadian fishing vessels Minister of Marine Tupper has introduced a bill which gives the government power to retaliate against Newfoundland vessels entering Canadian waters in the same way that Canadian vessels in the waters of that colony are dealt with.

Made an Assignment.

ST. PAUL, April 15.—An assignment has been made by the St. Paul German Fire Insurance company. The assets and liabilities of the company are not known. William Hamm, one of the directors, said: "The unaccounted losses occurring in the year 1891 and up to the present time in 1892 among holders of policies have satisfied the directors that a continuance of the business at this time would not be profitable to the company."

Mr. Haas, the Secretary, Says the Policy Holders will get their Return Premiums in full and the losses will fall on the stockholders.

The company did a business last year on which the premiums amounted to \$700,000.

The Match Trust Complete.

LEBANON, Pa., April 15.—The stockholders of the Lebanon Match company have sold all their stock to John F. Jaques, of Boston, Iowa, representing the Chicago and North Western company, for \$125,000, an interest in valuable machinery patented by the company being retained. This company was the last of those not originally in the trust to surrender to the Diamond people.

NOW THEY ARE OFF.

The Great Rush to the Sisseton Reservation Has Begun.

WATERBURY, S. D., April 15.—Everybody except the 1000 men in line at the landoffice has left for the borders of the reservation to be ready for the signal-gun at noon. A substantial shute to hold a line of men in single file has been constructed at the land office and filings will be taken at the rate of two a minute. The man who has first place has been holding it since Saturday night. He was offered \$1000 for it this morning but refused.

A Great Sight.

LEDEBROOK, N. D., April 15.—It was a sight worth seeing this morning when a rush was made for the Sisseton reservation. Very early large crowds started on foot with spades, shovels and picks. Every kind of a rig was drawn into service to get the boomers to their selected places. Hundreds were here early yesterday engaging crowds to take out the town teams and engage and consequently seedling is stopped.

The Welcome Signal.

MINNEAPOLIS, April 15.—The Journal's special representative at Brown's Valley, Minn., writes: The sharp, clear note of a bugle at noon today, the almost simultaneous crack of a carbine, then a volley from the whole far-reaching line of cavalry as the signal was taken up and carried in a reverberating report to thousands of waiting ears, a few more halting shots becoming fainter as the distance increased—and the Sisseton reservation was at last open. The military withdrew from the border and rejoined their companies.

A Squatter Killed.

WATERBURY, S. D., April 15.—A courier just in from the reservation reports the killing of a squatter. No particulars yet.

THE REPUBLICAN CONVENTION.

Ten Thousand Tickets at the Local Committee's Disposal.

MINNEAPOLIS, April 15.—The subcommittee of the national republican committee has practically finished its labors here. This morning the committee men were accorded an informal reception at the headquarters of the committee of ladies. The matter of the distribution of tickets has been settled to the satisfaction of everyone.

ALL HANDS LOST.

The Yacht Wadena, of Cleveland.

CLEVELAND, O., April 15.—A rumor is current here to the effect that the steam yacht Wadena, with J. H. Wade, Jr., and his family on board, founded in the Mediterranean and that all hands were lost. The report came in a private telegram from Boston.

Gen. Alexander Resigns.

SAVANNAH, Ga., April 15.—Gen. E. P. Alexander yesterday confirmed the report that he had resigned the presidency of the Port Royal & Western and the Port Royal & Augusta railroad company's ocean steamship line and the New England & Savannah steamship company. An election will be ordered to fill the vacancies, as the Central railroad controls these companies. The usual custom will doubtless be followed and President Comer of that company be made president of the other companies.

The Day in New York.

NEW YORK, April 15.—Good Friday is being celebrated with great solemnity in all the Roman Catholic and Episcopal churches. Many other churches of all denominations are observing the day with religious services. Although the banks are not closed and the government buildings are open as usual, the day is somewhat of a holiday in business circles. All the down town exchanges are closed and two of them—the cotton and coffee exchanges—will remain closed until Monday.

Damage by Frosts.

BANOR, Me., April 15.—The heavy frosts in some of the up-country streams have done considerable damage to the trout. The new iron bridge over the Wytopit lock between the Reid and Reid plantations has been washed away. It cost several thousand dollars.

Clark University Burned.

ATLANTA, Ga., April 15.—Fire last night destroyed the main building of Clark university for colored students, situated in this city. The loss will reach \$100,000.

WOMEN MAY VOTE

The New York Assembly Has Given Permission to Women to Cast Their Votes.

A Bill With That Object Passed By a Majority of Thirty-Five.

A Great Deal of Merriment as Usual

and Not Much Serious Argument.

ALBANY, N. Y., April 15.—In the assembly this morning Mr. Yeaman's bill to give women the right to vote for all state officers came up and was briefly supported by Mr. Yeaman, Mr. Husted and Mr. Sulzer.

Mr. Drypolcher moved to strike out the enacting clause. This was lost—24 to 62. There was a good deal of merriment over the bill, as usual, and not much serious argument. W. E. McCormick offered an amendment that "red-headed women" should be included, but withdrew on being told by Mr. Gifford that it was an insult to the young ladies in the house. Mr. Adams said he had received more requests to vote for this bill than for any other before the legislature, and each request asked for a blessing to go with the vote. He thought the legislature in need of blessing and he voted accordingly.

Mr. Husted said the ablest statesmen

the world ever saw, and the bravest people in the world were women. Mr. Smith said he was willing to share his privileges with his wife and stay at home half a day and tend the baby while she went to vote. Mr. F. J. Ryan said he believed it would elevate American politics. Mr. Stranahan said that for fifty years a woman had ruled the greatest empire in the world, he believed in giving equal rights to American women. Mr. Webster said that when women came here and made a request they should be listened to with a chivalric spirit; he could not give women the suffrage, but so far as he could, he would accede to her wishes, and cheerfully voted for the bill. Later when Mr. Wisner, a member, made speech full of double meaning, Mr. Webster arose and indignantly demanded that all claims to the suffrage be expunged from the record. This was carried. Soon after the bill passed 60 to 34.

In the senate today a bill was passed

fixing the wages in New York City for laborers at \$2 per day.

TALKING OF REPUDIATION.

The Argentine Republic May Repudiate Part of Its Debt.

BUENOS AYRES, April 15.—A rumor is current that England will be asked to assume a portion of the obligations of the Argentine republic, or to make compensation in some form, for the annexation of Falkland islands, claimed by the republic to be a part of its territory. The subject of partly repudiating or scaling the Argentine debt is being widely discussed and it is not improbable that a political party may take it as an issue.

The Weather.
U. S. WEATHER BUREAU, DULUTH, MINN.,
April 15.—Fair weather prevails in all sections
this morning and the temperature during the
past twenty-four hours has been small and con-
fined mostly to the 40s.

The coldest place in the country this morning
is Duluth, where the thermometer stands at 37.
Only one other place, Winnipeg, was below
freezing. Over Washington the thermometer
stands at 51. There are at 6 o'clock this morning
the warm weather has reached this section and
everything promises a pleasant, warm day for
tomorrow. The Northwest wind may
develop energy and bring rain instead of the
pleasant weather, but it is not probable.
The highest temperature here yesterday was
38, the lowest last night 25.

DULUTH, April 15.—Local forecast for Duluth
until 8 p. m. April 16: Fair; warmer;
R. H. DUNN, Observer.

WASHINGTON, April 15.—Forecast till 8 p. m.,

CLEVELAND CHANGES.
An Indianapolis dispatch this after-
noon gives particulars of an important
political conference held by leading
Democrats last evening. Governor Isaac
Pusey Gray, to support whose claims to
the presidential nomination the Indiana
Democrats have been ready to stand
shoulder to shoulder with the national con-
vention as long as there was any chance
of the convention failing to nominate
Cleveland, the delegates are to support
Gray, but they will hardly be called upon
to carry out that part of the arrange-
ment, because the nomination of the ex-
president is now practically assured.

All the favorite sons are rapidly
turned down, and the delegates in-
structed for Cleveland or his candidacy
indorsed. The Massachusetts Demo-
crats had a favorite in Governor Russell,
but indorsed Cleveland. Their Pennsylv-
ania brethren followed suit by stuffing
aside Governor Pattison for "the stuffed
prophet," and now the Indiana Demo-
crats will adopt a similar procedure with
Governor Gray. This will give Cleve-
land six states and 154 delegates, as
against one state and 72 delegates se-
cured by Hill in February. There is
little doubt that Ohio, Maryland and
Kentucky will also elect Cleveland dele-
gations, and while Illinois has a favor-
ite son in Senator Palmer the chances
are that Cleveland's candidacy
will be indorsed by the state convention,
and the delegates left free to join with
the majority.

It is asserted that Senator Gorman
has recently become convinced that Cleve-
land is the logical candidate, and this
change of sentiment on the part of one
of the keenest politicians in the party is
significant of the outcome. The Hill
boom had a brief but exciting life, and
it is now but an evanescent shadow. It
will not be astonishing if when the first
ballot for president is taken at Chicago,
not a single Northern state is found sup-
porting Hill. He has played a daring
game, and failed. The nomination of
Grover Cleveland at Chicago next June
is now as certain as anything in the
future can be.

SOUTH AMERICAN TROUBLES.
The South American republics are
rarely in a state of peace and quietude.
Revolutions and political upheavals fol-
low each other in quick succession. Men
who are elected presidents quickly de-
velop into dictators, and the result is
uprisings of the people whose liberties
have been trampled upon by the dicta-
tors. The great Chilean war, ending in
the defeat of Balmaine and followed
by his suicide to avoid a worse fate at
the hands of the victors, had barely been
concluded, when Brazil, which had
but a short time previously
peacefully effected a change from an
empire to a republic and shipped Don
Pedro, the aged emperor, and his family
to Europe, was stirred up by the
alleged despotism of President Da
Fonseca. He was forced into retire-
ment before the revolution had gained
much headway and Vice President
Peixoto assumed the reins of power.
But the change has not resulted in
peace. Yesterday's dispatches con-
firmed the report that the province of
Mato Grosso has, by its legislature,
declared its independence from the
United States of Brazil and
has formed a new republic
bearing the name of Trans Atlantic.
President Peixoto has sent a force of
soldiers to the rebellious province, and
the result, Mato Grosso is a large in-
land territory, lying between the headwaters
of the Paragaya and Araguaia, two large
rivers that flow northward into the Ama-
zon, and has a population of only a little
over 60,000. The heavy customs duties
imposed by the Brazilian government
upon its commerce is supposed to be the
cause of its secession. Other neigh-
boring states of Brazil have been grum-
bling for some time past, and it would
not be astonishing if they joined Mato

Grosso in this revolt against the federal
government.

In Venezuela the revolution against
Palacio's dictatorship is proceeding, and
reactionists, as the people opposed to him
are called, are winning victories in all
quarters. Palacio has already made ar-
rangements to get out of the country in
case of defeat, and that event seems to
be close at hand.

The religious world in New England
has received a great shock by the return
of Rev. Dr. Spaulding to the Episcopal
church. Only a few months ago he em-
braced Catholicism, as a result, he said,
of years of study and thought. His sud-
den recantation, without assigning any
reason, is therefore astonishing. But re-
ligion is a mystery and the only man
who can stand secure in his convictions
is the one who does not investigate too
closely and does not think too deeply.

The chronic grumblers who have been
complaining of Duluth's spring weather
should note the fact that yesterday morn-
ing Chicago was afflicted with a storm
of wind, sleet, rain and snow in a regu-
lar blizzard was raging in Iowa. At
the same time the weather here was
clear, warm and delightful.

Whiteland Reid is receiving high
praise for his services as minister to
France, and he deserves it. But it is
not surprising that Mr. Reid was suc-
cessful. He had the best training to
qualify him for the position, being a
newspaper man who had risen from the
bottom of the ladder.

There is a bill before the Massachu-
setts legislature prohibiting the playing of
music by street musicians. Evidently
this is intended as a blow at the hand-
organs, but who ever heard of music
emanating from a hand-organ? Such a
measure is apt to "make de monk sick."

The Halstead, Kan., Tribune received
by telephone the news of the destruction
of Towanda by a cyclone, but did not
publish it, because the editor thought
some one was trying to play an April
fool joke on him. This shows that a man
can sometimes be too smart.

The "city hall gang" in St. Paul, as
the Republican office-seekers in the
Sainly city call the present city admin-
istration, is to have another hard fight on
its hands this year, we are told. But
the "gang" will probably get the most
votes, as usual.

Senatorial courtesy demanded that an
innocent official should be made a scape-
goat to shield the garrulous old women
who gave away the proceedings of the
secret sessions. Senatorial courtesy has
developed into senatorial infidelity.

"When Bernhardt takes the veil" is
the latest phrase in Paris to express
something that is unlikely to happen. It
is therefore proper to say that "when
Bernhardt takes the veil" Merriam will
be an United States senator.

An Iowa editor called a state senator
the biggest liar in the legislature, and as
a result he has been arrested for libel.
The editor might now square himself by
saying that the senator is the smallest
liar in the legislature.

A strong effort is being made in the
Massachusetts legislature to pass a bill
providing for the abolition of grade
crossings. Every state in the Union
should have a law of this character.

The Chicago Mail compares Capt.
Anson of the baseball team to Ajax de-
fying the lightning. But would it not
be better to let the lightning strike him, and
thus secure the pennant?

The changes in the political situation
are becoming so numerous and so sud-
den that the average politician is likely
to become cross-eyed trying to keep
track of them.

It is said that the majority of the con-
gressmen think that an early adjourn-
ment is a necessity. Well, the country
can stand that and will not protest.

A man named Cooper has been
awarded the contract for cleaning the
streets of Chicago. He will need many
barrels to hold the dirt.

The Eastern umbrella manufacturers
are talking of forming a trust, but they
ought to know that an umbrella cannot
be trusted.

Senator Plumb used to be the greatest
newspaper reader in congress, and there
never was a more level-headed man in
that body.

Down in New York, when the "boys"
find time hanging heavily on their
hands, they now say, "Let's go Park-
hursting."

The Indiana dark horse is a Gray.
But his chances of becoming a presi-
dential nominee are of a darker hue.

The greatest show on earth will be
here on Sunday. Watch the triumphal
procession of the Easter bonnets.

Robert Mantell at the Lyceum—"Su-
perba."

Of Robert Mantell, who opens an en-
gagement at the Lyceum in "Monbars"
the Superior Leader, in which city the
company played last night, says: "This
talented romantic actor held the close
attention of a discriminating audience
at the Grand last night. The play was
the picturesque heroic drama "Monbars,"
adapted from the French of
D'Enfer, in which Mantell has scored
such a marked success. The robust fig-
ure, fine stage presence, easy manner
and rich musical voice stamp Mr. Man-
tell a finished actor and win the hearts
of his audience as evidenced by the
numerous curtain calls last night. The
support was for the most part competent
and the stage settings exceptionally
fine." At tomorrow's matinee "The
Louisianian" will be produced and on
Saturday evening "The Corsican Brothers."

The "Superba" of the Hanlons was re-
peated last evening at the Temple to a
house nearly as large as on the opening
night. The engagement closes with this
evening's performance.

Spring Gowns for a Dime.
"It's foolish to spend so much every
season for new clothes," said a druggist.
"My wife uses Diamond Dyes, and cuts
the clothing bills down one-half. They
make such handsome, unfading colors
that I guarantee every package. I have
made satisfaction if directions are fol-
lowed. I was never able to do that with
other household dyes."

SHE DEMANDS DAMAGES

Nellie Esch brings Suit Against the Street Railway Co. for \$2000 for Personal Injuries.

While the Company Alleges That Nellie was Drunk and That They Were Not to Blame.

Judge Severance Files Findings in the Case of Tullock Bros. vs W. K. Rogers Court Notes.

Judge Brown is hearing the case of Nellie Esch against the Duluth Street Railway company in the district court today. This is another personal damage suit, the plaintiff asking \$2000, together with her medical expenses. She alleges that in getting off a street car at the Lake avenue corner in December, she slipped on the platform, which was covered with ice, and fell to the pavement, breaking one of the smaller bones in her leg. Further than this, she claims that none of the employees offered her any assistance, but left her lying on the street. The theory of the defense is that the woman was drunk, and that she testified to picking her up and turning her over to Policeman R. C. Johnson, who sent her to the station. He thought she might have been drunk, and the officer says positively that she was. The witnesses for the defense also testify that the woman fell after she was on the pavement and not from the platform. The other witnesses were Louis Reitz and Lanson Strout. The witnesses for the plaintiff were Nellie Esch, Elizabeth Spicer, Charles Esch and Dr. G. W. Davis. The following are the jurors: W. H. Hancock, H. D. Pearson, G. H. Prudden, Thomas Olafson, W. H. Buckley, G. A. Everett, W. McCrimmon, H. C. McArthur, V. Berggren, John Ordale, Franklin Paine and W. H. Hickens. The case went to the jury this afternoon.

Daniel Barrett, whose trial for stealing \$1000 from William Toomey was on trial yesterday, was declared not guilty by the jury. Toomey gave him the money for safe keeping, according to the testimony, and then demanded back more than he gave, and not getting it, caused the arrest. The verdict was returned last evening.

W. N. Pollock, who operated the "blind pig" at Merritt, and pleaded guilty to one indictment, there being three in all, asked permission yesterday afternoon to change his plea to not guilty. Judge Brown referred the application to Judge Emsig before whom the plea of guilty was entered and the latter will hear the arguments tomorrow.

Joseph Fort has changed his plea of not guilty to disavowing a witness from testifying to guilty. He has not been sentenced.

IES. M. Robinson vs. J. J. Hagenkamp, et al., the lien case, which has been on trial for three days is still puzzling the brains of the court and jury, but will be concluded today.

Judge Severance, of the Sixth district, filed his findings in the case of Tullock Bros. vs. W. K. Rogers and the Highland Improvement company. The notice and claim for lien by the plaintiff against the property is declared insufficient because the proper description of the premises is not given. Judgment is therefore entered in favor of the Highland Improvement company. The plaintiff, however, granted a judgment against defendant W. K. Rogers for \$25,000.

A transcript of judgment from Washington county was filed today. It is against Dwight M. Sabin, the well-known ex-United States senator, and in favor of R. B. Langdon, the amount being \$27,620.34.

Good Friday Services. Good Friday has been solemnly observed in the Catholic churches of the city. At the pro-cathedral Right Rev. Geo. Collins celebrated the "Mass of the Presanctification" or pre-sanctified mass, as it is generally called, at 10:30 o'clock. All of the priests of the city were present and assisted in singing the "Passion." The congregation was large. This evening the right rev. bishop presided over the service of Christ, and Mr. Corbett delivered a sermon on the "Real Presence" last evening. Tomorrow morning, Holy Saturday, the blessing of the paschal candle, the holy water, the baptismal water and the holy fire will take place.

We will call for your stoves, store till fall, clean them and set up again. Good dry warehouse. Rates reasonable. DULUTH HARDWARE CO.

Mothers! Today and Saturday we will sell 100 dozen boys' shirt waists, Star and Mothers' friends, worth 75c, \$1.00 and \$1.25, for 50c each.

M. S. BURROWS & CO.

Bring Your Boy To C. W. Ericson and fit him out with one of those pretty spring suits selling at \$1.00, and better ones in proportion.

CHARLES W. ERICSON,
210 West Superior street.

Oh! How Green They Are. Don't get started now, this refers simply to the elegant layout of choice fresh vegetables just taken from the gardens and hot houses for Easter. You will find tomatoes, strawberries, asparagus and every other green thing that grows, as fresh and nice as in the month of July.

The Superior Football club was organized last evening and arrangements for a series of match games with Duluth are being made.

The Easter service at the Bethel will consist of a talk by Rev. C. C. Salter and a program of music and recitations by the children of the Bethel Sunday school.

The failure of the St. Paul German Fire Insurance company has been talked of considerably today. The company has not done very much business in Duluth, however.

The communication from the war department informing the board of public works of the disapproval of the canal bridge plans will be referred to the council Monday evening.

Mr. Heister, of the West End, formerly county commissioner and one of Duluth's pioneers, was reported this morning as being so ill that no hopes were entertained of his recovery. He has many friends in the county who will be very much pained to hear of his fatal illness.

The Epworth league of the First M. E. church will hold an "experience social" in the Bethel avenue Friday evening. Any member of the league or church or any others who have not been solicited and who are desirous of helping the young people pay their subscription toward the new church may bring a dollar, more or less, if they desire, but all, and especially strangers, are urged to come and listen to the experiences of those who have earned their dollar during the past month outside of the church and in the line of refreshments.

A Battery Of Victor water heaters will be placed in the Wilton terrace.

WILLIAM POWELL & CLARK, Chamber of Commerce Building.

Will Open Navigation. The steamer S. P. Barker will leave the Smith Fee Co's dock at foot of Fifth avenue west, at 7:30 tomorrow morning, for Grand Marais and Isle Royal.

The steamer John Mitchell will also go out tomorrow.

AFAIRS IN SAMOA.

Finances Are Reported as a Very Low Ebb.

New York, April 15.—Recent advices from Samoa say that on account of lack of funds in the Samoan treasury, Chief Justice Cederkrans, and President Von Senf, of the municipal council of Apia, have applied to King Malaitoa to require that all money paid into the municipal funds for customs duties shall be handed over to the Samoan government for various improvements. Within a few months \$28,000 in American coin has been expended for a residence for the president of the council, a jail, and other public buildings. Much of this money is believed to have been wasted.

Mataafa is still at Malie, where he is appointing magistrates and doing his best to gain the confidence of the white residents. A large meeting house is being erected at Malie. United States Consul Gen. Sewell is to leave Apia by the steamer Alameda for the United States on account of ill health. Vice-Consul Blacklock will act as consul. The mail steamers, it is reported, to discontinue stopping at Apia on account of patronage.

THE RUMOR WAS FALSE.

Chile Will Not Suspend Relations With This Country.

VALPARAISO, April 15.—There is not the slightest intention on the part of Chile to suspend diplomatic relations with the United States nor has any intimation been received from Washington that any such desire exists here. The news rumor from the United States that such a purpose existed has therefore caused much surprise both here and in Santiago.

The intention of the Chilean government is, on the contrary, to maintain a lasting good understanding with the United States and it is for that reason that Senator Albert B. Gana has been offered the post of minister to Washington in place of Pedro Montt. It is believed that S. B. Gana will be highly acceptable to the United States, having filled the post of Chilean minister at Washington about twenty years ago.

POWDERLY ALSO DECLINES.

Not a Candidate for the People's Party Nomination.

MILWAUKEE, April 15.—Secretary Robert Schilling, of the national executive committee of the People's party, today received a private letter from T. V. Powderly, general master-workman of the Knights of Labor, in which the latter says: "I have received several reform papers having my name at the head for president. I ask you in all sincerity to use your influence to put a stop to that nonsense. We want as large a vote as possible, and for certain reasons I do not believe my name would draw as well as that of some others."

DOINGS OF CONGRESS TODAY.

Various Bills for Public Buildings Favorably Reported on.

WASHINGTON, April 15.—In the house today bills for public buildings at the following places were favorably reported from the committee on public buildings and grounds: Hastings, Neb.; Cheyenne, Wyo.; Joliet, Ill.; Ann Arbor, Mich.; Clinton, La.; Helena, Mont.; Boise City, Idaho; Spokane Falls, Wash.; Suspension Bridge, N. Y.; also bills for a marine hospital at Galveston, Ohio, and to increase the limit of cost at Paterson, N. J., Buffalo, N. Y., (\$2,500,000) Kansas City, Mo., and Louisville, Ky.

The communication from the war department informing the board of public works of the disapproval of the canal bridge plans will be referred to the council Monday evening.

Mr. Heister, of the West End, formerly county commissioner and one of Duluth's pioneers, was reported this morning as being so ill that no hopes were entertained of his recovery. He has many friends in the county who will be very much pained to hear of his fatal illness.

The Epworth league of the First M. E. church will hold an "experience social" in the Bethel avenue Friday evening. Any member of the league or church or any others who have not been solicited and who are desirous of helping the young people pay their subscription toward the new church may bring a dollar, more or less, if they desire, but all, and especially strangers, are urged to come and listen to the experiences of those who have earned their dollar during the past month outside of the church and in the line of refreshments.

A Battery Of Victor water heaters will be placed in the Wilton terrace.

WILLIAM POWELL & CLARK, Chamber of Commerce Building.

Will Open Navigation. The steamer S. P. Barker will leave the Smith Fee Co's dock at foot of Fifth avenue west, at 7:30 tomorrow morning, for Grand Marais and Isle Royal.

The steamer John Mitchell will also go out tomorrow.

KILLED FOUR MEN.

Troops Asked to Run Down a Half-Breed Desperado in the Nantahala Mountains.

A Sheriff's Posse Surrounded Him But Fled When a Deputy Was Shot Dead.

A Man Tried to Kill His Wife, Two Men, Two Girls and Then Himself.

MURPHY, N. C., April 16.—Bill Murphy, the half-breed desperado who murdered his brother and three other persons, has killed a deputy sheriff and is now hiding in the Nantahala mountains, where he defies arrest. After killing his brother, he sent word to the sheriff that he did not want to hurt him, but that the sheriff must not try to arrest him.

The sheriff summoned a posse of fifteen men and with them, his deputy, went to arrest Murphy. Murphy was at the house of Tobe Miller with his brothers Arch and Jim, and they opened fire on the posse, when the sheriff ordered his men to shoot. A hot fire from both sides was kept up for some time and Ray, the deputy, fell dead with a bullet in his brain. When Ray fell the posse fled. The sheriff has asked the governor for troops.

Murphy has stalked off his grave by the side of his dead brother. He is now in the mountains of North Carolina, where it will be almost impossible to follow him.

BECAME COMPLETELY CRAZY.

Murderous Attack on Five People by a Drunken Man.

PITTSBURGH, Pa., April 16.—Edward Tracy of Mount Washington tried to kill his wife, a police officer, a butcher, two girls and himself last Thursday. He is a mill worker and came home from work in a drunken condition. He smashed his wife and also the servant girl and all the furniture in the house. After this he seemed to become perfectly crazy.

He walked down the street, and meeting another girl struck her and knocked her down. A man named Glazy interfered, and Tracy knocked him down and continued on his rampage. Down the street he found Weirman's butcher who was coming out of his shop. He pitched the butcher off and started down the street at a mad pace.

Officer Oustad tried to stop him but received a blow on the side of the head with the butt end of the whip which placed him hors du combat. Tracy was finally landed in a cell and while there he tried to kill himself by battering out his brains against the wall.

HARRISON IS STRONG.

Murat Halstead Talks on the Political Situation.

NEW YORK, April 16.—The Herald this morning publishes an interview had by one of its reporters with Murat Halstead in which he says that he believes Blaine's retirement from the presidential field is final and that President Harrison is strong.

He says there is no question of the present administration having been strong and clean and the impression of the people favorably. The Democrats, he says, are stuck in a slough. They have no tariff policy, no money policy, and Tammany's robbers will disintegrate the party.

THEY KISSED AND MADE UP.

Novel Cause of Reconciliation Between Husband and Wife.

MARIETTA, Ga., April 16.—Alfred B. Barilli, a nephew of M. Patti, and his wife arrived here yesterday and are living together at the hotel. This is the sequel to the suit which was filed in Kansas City a few days ago in which Barilli was sued for damages for alienating the affections of the wife of Dr. Horne, a Chicago physician. He (Barilli) had deserted his wife here, but this trouble brought about a complete reconciliation.

An Actor Shot.

NEW YORK, April 16.—While Frank Hilliard, the actor, was rehearsing at the Bijou theater last night in the play "Across the Potomac," he was shot by the accidental discharge of a superannuated pistol. The wound, although a serious one, is not necessarily fatal. Hilliard was conveyed to his home, where at 8 o'clock this morning, he was resting quietly, but the bullet had not been extracted.

Retailer Rejected.

HALIFAX, N. S., April 16.—The Newfoundland legislature yesterday rejected a motion to impose a tonnage tax upon United States vessels obtaining bait in Newfoundland waters, until Newfoundland fish is admitted free of duty into the United States, and to impose an export tax on frozen herring shipped in United States bottoms. Premier Whitehead said the subject was now in negotiation between the countries interested.

Col. Vedder Dead.

WASHINGTON, April 16.—Nicholas Vedder, brevet lieutenant-colonel and paymaster of the United States army, died last night. He was in his 74th year and on the retired list of the army. He was Sherman's chief paymaster on the "march to the sea."

Heavy Snow in England.

LONDON, April 16.—About a foot of snow has fallen in the southeastern portion of England. Railway traffic is impeded and shipping is to some extent interfered with. The weather is very cold and there is much suffering among the London poor.

Fire in Brooklyn.

BROOKLYN, April 16.—The large factory of the Brooklyn Sash and Blind company, on Flatbush avenue, Brooklyn, was totally destroyed by fire at an early hour this morning. The loss is estimated at \$50,000.

Burned to Death.

WASHINGTON, April 16.—Mrs. Mary Butler, a colored woman, living at 413 Eighth street south, was burned to death this morning by her clothing taking fire.

THE AITKIN REPUBLICANS.

The Machine Was in Good Order and Worked Smoothly.

AITKIN, Minn., April 16.—(Special to The Herald.)—The proceedings of the Republican county convention today gave evidence of the fact that the machine had the convention well in hand, and it rushed the slate through with a hurrah and adjourned twenty minutes after the gavel fell calling the convention to order. The delegates to St. Paul are: P. Casey, George T. Williams, W. R. Tucker and O. N. Maston, while P. P. McQuillan, A. P. Meyer, Geo. A. Rice and S. S. Luther will attend the district convention at Duluth.

All delegates go unopposed and no resolutions of any kind were introduced. Blaine is first choice if he be a candidate with Harrison a good second, although most of the delegates are undecided in their preferences.

WAS ONCE A MILLIONAIRE.

Death of a Man Who Experienced Brightness and Sorrow.

PITTSBURGH, April 16.—Wm. Smith, who for a long time occupied the foremost rank among business men here and was recognized as a millionaire, died suddenly at his home in this city yesterday. He was 70 years old. His career was one of brightness and sorrow. He made a fortune and then saw it pass away because of an unfortunate investment.

Mr. Smith was once the owner of the National Pipe works, an immense establishment. At these works he made the castings of the shells intended for the Ironclad Monitor in its famous fight with the Merrimack.

DROWNED IN QUEBEC.

An Old Sea Captain Perishes in a Swollen Stream.

QUEBEC, April 16.—Information has reached here of the accidental death of Capt. Aird, the retired commodore of the Allan line of steamships, at Cowansville, in the eastern townships. After having crossed the river safely more than 50 times the old commodore was drowned while commanding a swollen stream.

Capt. Aird, when commander of the steamer Samaritan, was the favorite captain in the Atlantic service with members of the royal family of England.

THREATENING THE WHITES.

British Columbia Indians Prepare to Resist the Warpath.

WINNIPEG, Man., April 16.—Advices from British Columbia say that further from Skeena river is that the Indians are prepared to go on the warpath if the member of their tribe, now under arrest, is sent to Victoria for trial. It seems that the circumstances connected with the killing are of such a character as to justify it. Hence the intense hostility of the Indians.

THE ST. PAUL MAYORALTY.

Col. Fred P. Wright Nominated by an Independent Convention.

ST. PAUL, April 16.—An independent convention was held last night and nominated a complete ticket for the coming spring election. The ticket is headed by Col. Fred P. Wright, Republican, for mayor, and Peter J. Dreis, Democrat, for city clerk.

Wright will probably also receive Republican nomination, and Mayor R. A. Smith will again head the Democratic ticket.

Want Some Inducement.

AMITY CITY, La., April 16.—So far there is no trace of the train robbers. The dogs brought here from Jackson, Miss., were a failure. The sheriff of the parish did not organize a posse to hunt the highwaymen, as was reported. There is very little excitement over the robbery, as the people do not care to risk their lives in attempting to capture the five outlaws unless there is sufficient reward to justify them in doing so.

Big Suits Begun.

CHICAGO, April 16.—The packing firm of George H. Hammond & Co. began three suits in the circuit court yesterday to recover alleged over charges on goods shipped after the introduction of a new tariff law took effect. The defendants and the amounts claimed are: the New York Central, \$20,000; Michigan Central, \$300,000; and the Delaware, Lackawanna & Western, \$50,000.

Losing His Mind.

QUEBEC, April 16.—Alarming reports are regarding the condition of his eminence Cardinal Taschereau. His physical strength seems to be unimpaired, but there are indications that his mental balance is gradually becoming unstrung.

Escaped From Prison.

DUBLIN, Ga., April 16.—Ben Swales, a murderer under life sentence, and five negroes charged with misdemeanor escaped from jail Thursday night. They sawed the bars from the door of the corridor. They are still at liberty.

A Canadian Senator Dead.

MONTREAL, April 16.—Hon. Gardiner Stephens, member of the Dominion senate is dead, aged 52 years. Mr. Stephens was a Liberal in politics and was called to the senate in 1875 as representative of the Bedford division.

FRANKLIN W. MERRITT & CO.

Commission and Stock Brokers.

The Herald is pleased to announce the opening of this new commission house, which will afford the people of Duluth and all interested in the great Mesaba and Vermilion ranges a headquarters for information and stocks in all the reliable companies. Franklin W. Merritt, president of this company, is one of the best known clients of Duluth, and has, as is well known, a perfect knowledge of the possibilities of the different sections of the Vermilion and Mesaba ranges. Private wires will connect this office with the stock exchanges in Chicago, New York, St. Paul and Minneapolis by which they will be prepared to receive orders for grain, provisions and railroad stocks and the fluctuations of the different markets of the world will be kept constantly posted at their offices, 201 and 203 Chamber of Commerce. Iron stock dealers of the world will be kept posted through this office in the exchange in the city. Above noted, which cannot help but be interesting in the leading stock dealers of the world. Another feature to commend it is that only stocks that can be immediately delivered will be offered for sale. Franklin W. Merritt & Co. extend a cordial invitation to all to call or address them at their place of business, 201 and 203 Chamber of Commerce building.

FIVE MILES LONG.

A Lengthy Wagon Train That is Crossing the Cherokee Strip to Reach New Lands.

The Governor Says Everybody Must Enter on Foot and a Great Race Expected.

No Cessation in the Anxiety to File on Homesteads in the Sisseton District.

GUTHRIE, O. T., April 16.—The crowd coming in for the rush into the new lands is greater today than ever before. Every train is packed and the roads are lined with wagons. One wagon train is over five miles long. Almost every hour the soldiers bring a crowd of "Sooners" out of the reservation, but to every one brought out a half dozen sneak in while the soldiers are away from the line.

The governor has issued orders that everybody must enter the towns on foot and this will be one of the biggest foot races on record. The crowd of negroes north of Kingfisher now numbers about 4,000, and they will go in a body to the county seat. The larger part of this county is already taken by Arapahoe Indians and it is thought there will be trouble. These Indians hate a negro and say they will not live with them. At El Reno the crowd has become so great that the reservation is being closed by a delivery window in front of the general store for a block and many men pay \$1 for a chance to get in line for their mail.

STILL FILING ON LAND.

The Rush to the Sisseton Reservation is Continued.

WATERTOWN, S. D., April 16.—The line at the land office this morning was longer than before the opening yesterday noon. Of the two filings made yesterday, sixty were rejected on account of conflict, and anxious crowds hovered about the bulletin board where the names of the unfortunates were posted. Everything is reported harmonious on the lower end of the reservation. It is noteworthy that during the entire rush there has not been one case of drunkenness as yet.

Not What They Wanted.

LIDGERWOOD, N. D., April 16.—There was scarcely any trouble here in settling, every instance the boomers got what they wanted, and nowhere are there two men on the same quarter section. Plenty of fine farm land is to be had for several weeks to come, as the greatest rush was made from points east and south of the reserve. While there were large crowds of homesteaders here the land tributary to this point was cut up so much by Indian allotments as that near Brown's Valley, Willmot and Watervort.

A Lake Shore Accident.

CLEVELAND, O., April 16.—The Chicago mail west-bound on the Lake Shore ran into the rear end of a freight train at the station shortly before midnight. The engine of the passenger train was demolished, causing a delay of a couple of hours. Nobody was seriously hurt.

A Short Imprisonment.

OMAHA, Neb., April 16.—Capt. A. D. Vocum, who killed Myron Vaughtel, correspondent of a sensational sheet, for slandering his daughter, and who was yesterday sentenced to one year in the penitentiary, was today pardoned by Governor Boyd.

Deaths From Cholera.

PARIS, April 16.—Fifty-three deaths have been caused by cholera among the convicts at the Nanterre penal institution. The sanitary authorities are making an investigation.

A NERVOUS WHEAT MARKET.

Prices on the Duluth Board Unchanged From Thursday.

The market opened considerably weaker this morning the first not being made at 79½¢, ¾¢ lower than Thursday's close. The market here was a quiet one during the forenoon, trading being confined largely to May and July wheat. The fluctuations were narrow, the feet being very feeble. No one appeared to have any confidence in the future prices of May wheat. Most news was of a bearish nature. There was heavy trading after noon on a slightly advancing market. The total amount was considerably above the average.

The close was ¾¢ above the opening and unchanged from Thursday.

Following were the closing prices: No. 1 hard cash, 81½¢; April, 79½¢; May, 82½¢; June, 81½¢; July, 84½¢; No. 1 northern, 80½¢; Cash, 80½¢; April, 77½¢; May, 80½¢; June, 81½¢; July, 82½¢; No. 2 northern, 79½¢; No. 1 hard, 81½¢; No. 1 northern, 80½¢.

Car inspection for today—No. 1 hard wheat, 1; No. 1 northern, 95; No. 2 northern, 4; no grade, 1; total, 110.

Receipts—Wheat, 41,174 bush, flax, 8,115 bush. Shipments—Wheat, 32,500 bush. Cars on track—Northern Pacific, 71; Great Northern, 248; Chicago, St. Paul & Duluth, 16; total, 375; corresponding date last year, 139. The increase for the week in the stock of wheat in store here will be about 1,500,000 bush.

Outside Markets.

CHICAGO, April 16.—Wheat: May 1 80½¢; July, 80½¢; Corn: May, 40½¢; July, 38½¢; Oats: May, 28½¢; July, 27½¢; Pork: May, \$10.07½; July, \$10.22½; Lard: May, \$6.20; July, \$6.32½; Short ribs: May, \$5.57½; July, \$5.70.

MINNEAPOLIS, April 16.—Wheat: April closed 77½¢; May opened at 77½¢ and closed at 77½¢; July opened at 79½¢ and closed at 80½¢; On track: No. 1 hard 81½¢; No. 1 northern, 80¢; No. 2 northern, 79½¢.

Disastrous Prairie Fire.

BURLINGTON, Colo., April 16.—A tremendous and disastrous prairie fire is raging in northwestern Kansas. The region is thickly settled with ranchmen and the damage will be very heavy.

Baseball Yesterday.

At Louisville—Louisville, 4; Chicago, 2.
At St. Louis—St. Louis, 3; Pittsburgh, 2.
At Cincinnati—Cincinnati, 5; Cleveland, 2.
At Baltimore—Baltimore, 6; Brooklyn, 2.

THE WINTER WHEAT CROP.

An Average Crop Reported in Five Leading States.

TOLEDO, April 16.—During the past four days a firm have received 2,000 crop reports from the grain dealers of Ohio, Illinois, Michigan, Kansas and Missouri, which raise two-thirds of the winter wheat crop of the United States. Six hundred reports present prospect excellent, 1,000 an average crop, 300 a poor crop and 150 only half a crop. The reports make present prospects for an average wheat crop in the states named. Michigan reports the best prospects, being above an average, while Indiana and Illinois show nearly as well. Ohio promises below an average, as do Kansas and Missouri. The reports are not quite complete. Prospects have improved in all of the states since two weeks ago, when the agricultural bureau's report for April was gathered. Indiana shows the most improvement and Missouri the least. Over two-thirds show from a small to a decided improvement, owing to more favorable weather. There was a much smaller amount winter killed than usual, nearly half reporting that none had been killed.

CONGRESSMEN INDIGNANT.

The Payment of the Italian Indemnity is Criticized.

NEW YORK, April 16.—A special to the Herald from Washington says there is trouble ahead for the state department. It results from the payment of the indemnity to the Italian government for the New Orleans lynching from the contingent fund of the state department. It was not because an indemnity had been paid that fault was found, but because the president had assumed the right to pay it without consulting congress.

The members of the committee on foreign affairs in both houses are very indignant at what they term an arbitrary and flagrant misuse of money which has been annually voted for some years for the contingency. The subject is likely to be sharply discussed when the diplomatic appropriation bill is taken up for debate.

CREATED A STAMPEDE.

A Laughable Scare at the Union Depot in St. Louis.

ST. LOUIS, April 16.—The employees and passengers at the union depot were thrown into a panic last night by the report that a carload of Russian immigrants which had just arrived from the East was afflicted with small-pox. The announcement created a stampede and in less than two minutes the depot was vacated. The men, women and children were tumbling over each other in their anxiety to get away from the infected passengers.

Health officers were summoned and on investigation pronounced the immigrants free from disease. The immigrants are destined for Council Bluffs, Iowa and California points.

HALF-CRAZY FANATICS.

That is What the German Authorities Consider the Anarchists.

BERLIN, April 16.—The German government does not intend to propose or to consent to any agreements between the governments with regard to anarchists. It is, on the contrary, of opinion that it is the duty of each government to deal with such crimes by itself, especially as they are the work of a few half-crazy fanatics who have no hold of any kind upon the people. Even the possibility of the existence of an international organization of dynamitards and anarchists would not affect this attitude on the part of Germany.

MURDER OF A PRIEST.

Killed by a Lunatic While Celebrating Mass.

MADRID, April 16.—While Father Marti was celebrating mass on Good Friday at Anglesola, in the presence of a large throng, a man suddenly sprang upon him from behind and nearly severed his head from his body with a sword. The murderer then began shooting into the audience, killing one woman and wounding several other persons.

In the panic and confusion which ensued, the assassin escaped and is still at large. He was undoubtedly insane. Father Marti was widely known and the terrible tragedy has created a profound sensation.

Valuable Painting Found.

KEOKUK, Ia., April 16.—An interesting painting has just been discovered here. It is the property of the Mallard family. Experts say that the picture, which is the head of Christ, is worth over \$10,000. The painting is attributed to Raphael. The picture is an old one, and judging from the peculiar way in which the colors blend, experts say it shows a masterly hand.

Shot by Highwaymen.

CHATTANOOGA, Tenn., April 16.—A Press special from Jacksonville, Fla., says: The mail rider between Hernando and Rock Mines and the postmaster at the latter place were shot dead by highwaymen last night. A posse of United States marshals are after them.

New York Weekly Bank Statement.

NEW YORK,

ARE OFF FOR BUFFALO.

Two Lower Lake Steamers Loaded With Wheat For Buffalo Leave Duluth Harbor This Morning.

The S. R. Kirby Goes First Into the Field of Ice and the John Mitchell Follows.

Navigation is Opened With a General Blast of Whistles—Some Marine Notes of Interest.

The season of navigation was opened here today by the steamer S. R. Kirby, which moved out of the harbor at 10:30 amid a hoarse screaming of whistles from the various boats, mills, elevators and other steam plants along the harbor front. The tug Buffalo, of the Inman line greeted the pioneer outgoer of 1892 first, and the windows and balconies on the rear of big buildings on Superior street were quickly filled with people and along the dock fronts there was a series of crowds waving hats and handkerchiefs. Capt. James Fraser pulled the whistle on the Kirby, in response to the greeting, and the boat pushed out into the lake, meeting but little hindrance from the ice.

At 11 o'clock the steamer John Mitchell followed the Kirby and received another deafening blast of whistles. She took the same course as the Kirby for a few miles, but finally sheered off a little southward. Both the big boats are loaded with wheat for Buffalo. Capt. W. H. Cowin is in command of the Mitchell.

A little later the steamer S. B. Barker, of the Smith-See line, pushed out of the harbor and followed the Kirby's course through the ice until opposite Lester river, when she struck out for herself on a trip to Grand Marais, Beaver Bay, Isle Royal and other points.

At the customs house the vessels which have taken out clearances and the order in which they were taken out is as follows: John Mitchell, April 14, Buffalo. S. R. Kirby, April 16, Buffalo. J. C. Gilchrist, April 16, Buffalo. John W. Nicol, April 16, Buffalo. S. B. Barker, April 16, Isle Royal.

The John W. Nicol and the Eber Ward will probably get away tomorrow with wheat and flour for Buffalo.

As a comparative opening today's departures for the lower lakes are about the earliest on record for several years, the following data furnished by the Inman line register will show:

Last year the H. R. Dixon cleared for Isle Royale on April 20, but the Sikta, 102 and 104 got away at 2:15 a. m. for Buffalo on May 2. The W. H. Stevens followed at 5 o'clock on the same day. In 1890 the Yakima, 104 and S. F. Hodge left port April 21 followed by other boats within a few hours. In 1889 the propeller Keystone and schooner J. G. Masten left here April 17, just one day later than this year.

The first boat in for that season, arriving April 20.

Last year the first arrivals were the John Mitchell, W. H. Gratwick and R. L. Fryer on April 23 at 1:45 p. m., and they were followed by a big fleet within a few hours.

The Joe Dudley left Port Huron today for Duluth and will be in Duluth tomorrow where she will be joined by the Booth steamer Dixon and a large list of Duluth and Superior bound vessels.

Ice in Mud Lake.—SAULT ST. MARIE, April 16.—[Special to The Herald.]—The weather has continued cold during the past two days. There are no boats reported in Mud Lake up to this noon. Navigation will probably not open until the 19th. The ice in Mud Lake is more solid than it was a week ago.

Port of Duluth.—PROP. S. R. Kirby, Buffalo, wheat. PROP. John Mitchell, Buffalo, wheat. PROP. S. B. Barker, Isle Royal, passengers.

Marine Notes.—The McDougall boats have received their crews and will be in commission by Monday. The 101 is at Cleveland and the 111 at Toledo loading coal for this end of Lake Superior.

The ice is thoroughly rotten and the smallest boats can get through without serious trouble.

The ferries commence running on regular time Monday.

The John Harper struck the Eber Ward this morning a light stern blow, doing no damage beyond breaking the Ward's line.

Stick a pin in this: The first boat will be here from the lower lakes Wednesday.

MESABA MINES.—Doings of a Week on the Great Iron Range.

Mining matters for the past seven days have been rather quiet, but development on the range goes steadily forward and the prospect is as flattering as ever.

Capt. Thomas Wilson Wood, late of the Norris Mining company and a son of Capt. Wood, of the Mountain Iron, has been made superintendent of the Pennsylvania.

J. E. Drouillard, superintendent of the Charleston mine, came down from the range this morning.

W. C. Runyan, an ore buyer of Cleveland, has it is said, been negotiating for the handling of the output of the Biwabik and Mountain Iron mines.

D. T. Adams, James Sheridan and others are soon to commence explorations on land in section 19, 58-17.

The Roushew Iron company has erected two camps in sections 8 and 9, 58-16. Capt. L. N. Benjamin has charge of the exploration and has a force of forty-nine men at work. The Roushew Iron company controls the Higgins lands.

Col. W. L. Wallace has been made superintendent of the work being done by the Ohio work.

Capt. George Sutherland, of the Norrie mine, Gogebic range, has resigned his situation to assume a similar situation under Capt. A. P. Wood, of the Mountain Iron mine.

Neil McInnis, who recently withdrew from the mercantile business at Tower, has been engaged by A. E. Humphreys & Co., the prominent mining firm, and will have charge of the company's camp.

The Vermilion Iron Journal says: "There is considerable activity on the Vermilion range nowadays. The Minnesota mine is turning out forty tons a day and will soon increase it to sixty."

The Chandler, which shipped 22,728 tons last year, expects to ship 500,000 tons this season. The above is from Tuesday's issue of the Duluth News, and it is a specimen of that paper's reliable mining

news. The publishers had better engage a new man to do the iron reporting. The Minnesota is mining from 1800 to 2100 tons of ore daily, and the Chandler last year shipped over 500,000 tons of ore.

A RICINATE TEST.

A Public Test of a Fire Proofing Material.

A test of ricinate, a new fire proofing material, was made yesterday afternoon by A. E. Gilbert, the manager of the company who manufacture the material. The test was a very successful one and showed that ricinate will prevent fires. Two large sign boards were erected, one of which was painted with the so-called ricinate, and the other left in a state of nature. At the base of each was built a fire. The result was that one went up in flames while the other was only slightly charred. The heat which the board painted with ricinate withstood was enough to have crumbled the iron and yet the boards were not even charred. They were blackened and a little warped but the material had prevented the fire from securing any hold. Ricinate proves a success, and it has already shown itself to be a company which will be formed here for insuring buildings where it is used. No other class of risks will be taken and the rate of insurance will be very low.

May Aid Duluth.

The victory of the company in the case Nelson Bros. et al vs the Duluth, Huron & Denver railway may have an important result for Duluth. Now that the court has disposed of all claims against the organization the Duluth, Huron & Denver railway, amounting to something like \$150,000, the company has been reorganized as the Duluth & Western, which holds the franchise. The transfer of the grant was contested by the plaintiffs in the action just decided, but the supreme court held it to be legal. It is well known that Chicago capital has been interested in this new organization, and immediately after the decision was filed a gentleman representing the company left for that city for a conference with the interested parties. The original company built fifty-nine miles of roadbed running from Sauk center to the state line between Minnesota and Dakota, when operations were stopped owing to the financial embarrassment which led to the sale of the Duluth and Denver were the objective points.

Our Delegate.

The Minneapolis Tribune said yesterday of our delegate to the national Democratic convention, "John G. Brown, who was chosen by Judge Theodore Bremer, of St. Cloud, to represent the Sixth district in the Chicago convention, spent yesterday in St. Paul looking after his business interests. Mr. Brown is one of the representatives of the fighting Democracy of Duluth, and has taken a prominent part in the campaigns in this city for some time past. He believes in organization, and helped to place the party in its present splendid condition in the Zenith city. But like his fellow workers, of whom there are a goodly number, Mr. Brown is modest and claims no particular credit for the result of the late city election, nor the fact that Judge Wilson carried Duluth two years ago."

The Lake Avenue Via duct.

Fredin & Wilson have not yet resumed their work on the Lake avenue viaduct, but it is understood that they will do so soon. The advice of Mr. Allen in the matter is said to have been supported by a written opinion from W. W. Billson who says that the contract is valid and that assessments made for the work will be legal. In the interview with Mr. Allen yesterday he was slightly misquoted. He was made to say that the assessment would not be affected in any way by the matter. What he did say was that if the assessment had been paid it could not be recovered and that past assessments would not be affected by the matter.

Activity at Bay View Heights.

The manufacturing growth up the bay, together with the location of ore and coal docks and railroad terminals at West Duluth is showing itself in an inquiry for real estate in Bay View Heights. The Bay View Land company report an increased demand for their property both for speculation and improvement. The western suburbs will make rapid progress the coming season.

LONGFELLOW SCHOOL.

A Building That is a Credit Alike to the City and to the School Board.

Will be Occupied by the Schools From Grand Avenue on Wednesday of Next Week.

Another Fine Addition to the Handsome Equipment of the Duluth Public School System.

West Duluth's Longfellow school building is so far completed that the furniture from the rooms on Grand avenue is being moved today into the first floor rooms and schools will meet there next Wednesday for the first time.

The building is full three stories high from the front, made of pressed brick, from plans and specifications prepared by Architects Palmer & Hall, of Duluth.

The basement is used for engine and boiler room, two class rooms, etc. The first floor above contains five class rooms, principal's room, two cloak rooms and a bathroom. The second floor is finished in superb manner. The second floor is a duplicate of the first. The finish is exceptionally fine, being done in quarter-sawn antique oak. The blackboards are made from Pennsylvania slate, three-quarters of an inch in thickness and average four feet square, set in cement, and occupying a continuous space between windows and doors on the four sides of the rooms.

The ventilation is made by Smead's system and is considered perfect. Pond's heating apparatus is used. The building is wired throughout with electric light, and a complete system of electric bells and fire alarm. The east wing has a hose and nozzle attached to the water pipes and is sufficient to reach any part of the floor. The windows will be fitted with oak sash sliding shades to correspond with the woodwork.

J. W. Phillips, who has charge of the construction, thinks the building, one of the best at the head of the lakes, and says much praise is due to Thomas McCarthy, foreman of the building, who has personally superintended all the work.

Not the least feature of beauty about the building is the handsome tower which surmounts the structure. From the upper platform one of the most magnificent views can be obtained, embracing a stretch of country from up the bay several miles to the open lake beyond Duluth. West Duluth is to be congratulated, and in building school buildings, the best is none too good, and in this building we undoubtedly have the best, a monument to the far-seeing men who planned for needs not then existing, but with our present growth will be none too large to accommodate the scholars who will attend next year.

West Duluth Notes.—Born.—To Mr. and Mrs. M. Tims, of First avenue west, yesterday a son.

The Choral union will meet next Tuesday evening. A full attendance is desired.

This morning's Tribune says a fair is being held by the Catholics in the Commercial block. The above item will be news, indeed, as the fair was held last November.

Rev. Mr. Sheridan, of Duluth, has kindly consented to come to the Episcopal church for a service Easter day at 9 a. m.

Great bargains at the Easter sale at the Great Eastern. An elegant dress free with every \$10 sale.

KASTNER & NEWMAN.

The Bay View Land company contemplate making many important improvements on the Heights this summer, among which the new incline car service will rank as first. The residents on the hill are jubilant over the proposed change.

L. G. Wallander is moving his sash and door factory from its present site to the corner of Fifth avenue west and Main street, along side the terminal tracks.

Just a year ago today N. C. Hendricks opened up a little establishment on Grand avenue with a small stock of dry goods. At this grand spring opening today he shows the finest store room in the town full of all the latest novelties in dry goods. He has had Mr. Frank Marshall dressing his windows and the interior of the store for the past week, and the effect is very artistic. Success to Hendricks, the hustler. The town needs more merchants like him.

DULUTH & WINNIPEG

The Ore Docks at Allouez Bay Will be Built at Once But no Contract has Been Let.

The Road Will Cross at New Duluth and Use the Terminal Company's Tracks.

The Road Will Enter Duluth When It Can do so Over its Own Right-of-Way.

W. H. Fisher and the other Duluthians who attended the meetings of the Duluth & Winnipeg and the North Star Construction companies at Baltimore returned this morning and a conference of those interested was held with Mr. Fisher this morning. The first authentic information of what was done at the meeting of the two companies was learned in the city today. The most important matter considered was the immediate building of ore docks and of carrying out the agreement made some months ago to locate them at Allouez bay, on the Wisconsin side. This action was determined on. The Duluth & Winnipeg directors decided upon the action and the approval of the construction company directors was given.

The road will come to New Duluth, where it will cross the river, and from there it will reach the proposed ore docks over the tracks of the Transfer and Terminal company. The contract for the work to be done by the Duluth & Winnipeg has not yet been let, but it will be as soon as possible. It will probably go to Grant Foley. No figures as to the cost of the new work have been made public. The terms of the road will be in Duluth and the general offices as heretofore will remain on this side of the bay. These last facts were confirmed by Mr. Fisher, who said, when asked about the results of the meetings held on Thursday:

"The most important result is that the work on the ore docks at Allouez bay will be begun at once and will be pushed forward as rapidly as possible until they are ready to receive the ore shipped over our line. The general offices of the road will remain in Duluth and the road itself, as has always been the case, is still anxious to gain an entrance into Duluth. We expect some time to enter the city and will come here just as soon as we can afford to. The company have determined that when they do enter Duluth it must be upon their own tracks, for they feel that their entrance into Duluth will be over their own right-of-way. In answer to the question, 'Will the Duluth & Winnipeg build their own line into Superior?' Mr. Fisher replied: 'No the entrance there will be upon leased truckage and upon satisfactory terms.'

Mrs. Clara C. Hoffman, of Missouri is without doubt, one of the strongest and most popular prohibition lecturers of the day. Her recent tour of the Pacific coast lecturing nearly every night for three months in California seems to show her popularity. All who are interested in the advancement of sentiment that we may the sooner save 500,000 wrecks annually, should not fail to hear her lecture on the "Dykes of Holland" at the Lyceum, Monday evening, April 18.

BRIDGING THE CANAL.

Text of the Adverse Report of the Board of Engineers.

The Herald has received from Secretary Thompson, of the chamber of commerce, who is at present in Washington, a copy of the report of the board of engineers on the bridge matter, which he was able to obtain through the courtesy of Gen. L. A. Gray, assistant secretary of war. The report is very voluminous and covers a great deal of ground. A summary is given of the arguments pro and con before the board, and this is followed by a description of the canal and Minnesota Point and other facts of record. Then come the conclusions of the board. The extent of the dangers involved in the proposed bridge is not admitted by the board, and the advantage to Duluth of connection with Minnesota Point is recognized. After pronouncing the design of the lift bridge one of great merit, the board says:

"It is to be understood that these favorable remarks apply to the design, and not to the question whether a lift bridge is to be preferred at this locality. As a matter of fact, the board thinks that a properly designed swing bridge would better fulfill the requirements, except as to the use of Minnesota Point, the only direction in which the city can expand for commercial purposes. This is a strong argument, and appeals to the sympathy of the board, especially in view of the well known activity and enterprise of the people of Duluth, which certainly deserve all the encouragement that can properly be extended. But the board feel compelled to put this aside and to follow the question regardless of sentiment. They must look to the future, and base their opinions upon what seems to be the best for the interests of all concerned."

"In view of the facts and arguments detailed, the board concludes that it is not advisable to authorize the construction of any bridge across the canal entrance to the harbor of Duluth, Minn. They believe that the existing dangers and difficulties to shipping which would result from the bridge proposed have been overestimated by its opponents, while the degree of obstruction which would be due to such a structure has been underestimated. Any bridge across the canal would be a menace to navigation; but the propositions of the city of Duluth, which would reduce them to a minimum in this case."

"The city of Duluth proposes certain guarantees looking to the proper operation of the bridge, and even to its removal in case it should prove to be an unreasonable obstruction. The valuable value of such a guarantee is indicated by the closing paragraph from the report of the board of engineers, heretofore quoted. If there were a bridge over the canal, such that vessels would approach and pass the canal free from danger due to stress of weather or perils of the sea, the conditions would differ so much from those actually existing that the board might find it less difficult to reach a conclusion that would be satisfactory."

"One very important factor in leading the board to their conclusion, is their disinclination to establish a dangerous precedent. The piers which carry the canal at Duluth, are essentially the same in general function as those which are found at the entrance to the harbor of lake harbors, and the canal itself corresponds exactly with the throat of all harbors where the water is shallow. It is the point where the mariner passes from the perils of the sea into the harbor, and it is at this point that the harbor. He approaches this point, and sometimes passes it in a struggle for life and property. Therefore, it is not too free from obstruction, or the possibility of it. If a bridge were authorized over the canal at Duluth, there could be no reasonable objection to permitting such a structure at any other exposed harbor entrance on the lakes; and without doubt, applications would be made for the same. The new bridge would appear in another column of the Herald."

THE DISTRICT COURT

Joseph Hort, Who Has Played the Star Part in the Criminal Calendar, Closes His Engagement.

W. N. Pollock is Allowed to Withdraw His Plea of Guilty and Will Have a Hearing.

The Jury Calendar is Finished and the Jurors Exemsted—The Setting of Court Cases.

At the district court today W. N. Pollock appeared and was allowed to withdraw his plea of guilty to the triple charges of selling liquor on the Mesaba range and was again until Monday to re-plead, bail in \$250 being demanded in each case and furnished.

Hort, the shooter, was brought into court and fined \$50 and discharged. Several minor cases were wound up, several continued and the jury was excused from further attendance on this term of court.

The trial of the court cases will be taken up on Monday and both judges will hear them. The complete set of the court cases is as follows:

Monday—32, 33, 35, 40, 51, 49, 52.

Tuesday—61, 63, 72, 73, 75, 76, 77, 78, 79, 82, 83.

Wednesday—84, 85, 89, 90, 91, 98, 99, 97, 98, 74, 36, 15.

Thursday—56, 93.

The hearing of the special calendar was taken up by Judge Brown but nothing of special importance came up.

W. F. Norton et al. vs. Charles Joy et al., a suit to settle title to realty; Germania Iron company vs. Thomas Reed et al., to quiet title to part of the elevated section 30; an order refusing confirmation of any part of the assessments for cuts and fills on West Superior street between Twenty-second and Twenty-sixth avenues west was wholly invalid; A. A. Douglas vs. Fred Ford, a labor suit for \$133; Andrew Wildman vs. Louis N. Sanborn et al., suit on promissory notes aggregating \$2579; Jacobson et al. vs. Ole Thomson, labor suit for \$55; an order for the continuance of the case of the assignment of the Duluth Woolen mills and denying certain motions; the entering of judgments against various insurance companies in favor of Guide Bros. and a notice of appeal by the plaintiff in Benjamin Grant vs. Kate Walbank et al. were the new matters filed with the clerk today.

Change in the Management of Duluth's Popular Shoe Store.

I have sold my entire interest in the M. A. Phillips boot and shoe store, at No. 214 West Superior street, to J. L. Phillips & Co. The new firm will continue the business at the old stand, and while I am not connected with the store, I would ask my patrons to further continue to deal with my successors. The book accounts have been transferred to Phillips & Co. and those who are indebted to the house are respectfully urged to settle their accounts at their very earliest convenience.

Phillips & Co. are energetic business men and propose to develop the business of which they are the sole proprietors. The stock of the new house will be enlarged both in quantity and in the new business. The business will be conducted on a cash basis. Buyers will at once appreciate the fact that it is only in that way that first-class goods can be sold on close margins.

An Aggressive Movement. Spiritualism seems to be getting quite a vogue here, and at this rate the young spiritualistic organization here seems to be quite an aggressive one. Last month Mrs. Slade, the famous test and slate writing medium, is here, and he is reported to be dumbfounding and silencing all doubters who call upon him. And now, Frank N. Foster, the noted spiritualist photographer, has arrived here to open up new office and spend a few weeks in Duluth, which, by the way, is his old home. Mr. Foster is accompanied by his son, Benjamin, a young man about 18 years of age, who a few years ago, was one of the pupils in our public schools, but who today is one of the most marvelous physical mediums in the country, and who, while here, will hold seances in private houses, as may be desired, on which occasion it is said that the most startling phenomena will be produced.

Next month Mr. De Wolf, a noted lecturer and slate writing medium, will be in Duluth, and in short, the intention seems to be, to keep the thing up and if possible to demonstrate to the people of this community that in spite of the skeptics and doubters, spiritualism is a reality.

"SINBAD THE SAILOR."

The Appearance of the American Extravaganza Company will be a Notable Event.

With Dixy, Patti Rosa and Maud Granger Next Week's Attractions are Unusually Strong.

Some News of Coming Attractions at Both Houses, and Some Gossip of the Stage.

Both play houses have presented their patrons with good attractions this week. Robert Mantell is one of America's strongest romantic actors and is one of the coming men on the American stage. His work is finished, polished and intelligent, and to his skill as an actor he adds a very winning stage presence and a magnificent voice. He has always been a favorite and his present engagement has added to the favor in which he is held here. Monbars, which was presented last night, is a remarkably strong piece of dramatic work and it is well presented. This afternoon the Louisiana, a new piece for Mantell, was presented and this evening The Corsican Brothers will be presented.

At the Temple the Hanlons had a remarkably successful engagement, "Superbia" may not be of the highest class as a dramatic production but it is certainly clever and pleasing.

Next week the attractions will be stronger than those of any single week of the year. The Lyceum has but one company, but it is a strong one. Maud Granger has been doing an exceptionally good business this year and will probably take well here.

The Temple will out do itself. The visit of "Sinbad" is an event for it is without doubt the best spectacular now to be seen and the company is a favorite one with Duluthians. The other productions, though in different lines, will be equally strong. Patti Rosa and Dixy both should appeal to a large class of theater goers, and it will be strange if they do not draw good houses.

"SINBAD" AT THE TEMPLE.

The American Extravaganza Company Opens Monday.

Monday night at the Temple Opera house the American Extravaganza company will, for the first time here, present "Sinbad, or the Maid of Baisora." This

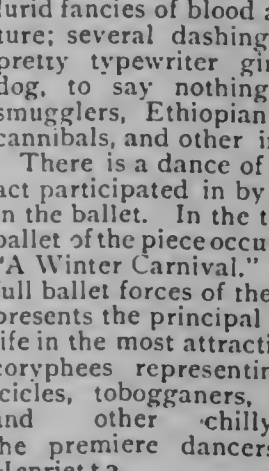

production ran for twenty-two weeks in Chicago last summer, and will be given here by the same company with the same elaborate scenery, costumes and properties used in that city and the other large cities of the country where it has been played.

The story of the piece tells how Sinbad's sweetheart, Nineta, the

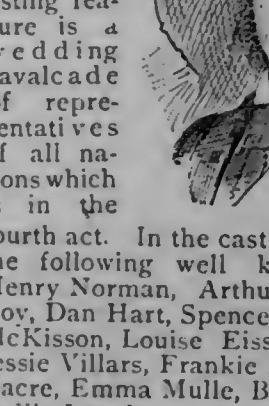

maid of Baisora, is betrothed by her bankrupt father, Nigolo, to a smuggler, Snarlrow; how she is carried away by the smuggler on his fleet sailing craft, is accompanied by Sinbad and his apprentice companions, and after many trials and hairbreadth experiences on sea and land, including a ship wreck, a captivity among cannibals, and a sojourn in the Valley of Diamonds, is finally rescued from the smugglers and happily wedded to her lover. Cananally introduced as Fresco, whose life is tinged with the lurid fancies of blood and thunder literature; several dashing apprentices and pretty typewriter girls, and a faithful dog, to say nothing of the numerous smugglers, Ethiopian slaves, Persians, cannibals, and other interesting people.

There is a dance of flowers in the first act participated in by the best dancers in the ballet. In the third act the grand ballet of the piece occurs which is entitled "A Winter Carnival." It calls for the full ballet forces of the organization, and presents the principal features of winter life in the most attractive manner. The corruscating, repelling, snow flakes, icicles, tobogganers, skaters, sleighs, and other "chilly things," and the premiere dancers, Edith Craske,

Henrietta Rosche, and Martha Irmier, do appropriate solos. An other interesting feature is a wedding cavalcade of representatives of all nations which is in the fourth act. In the cast of "Sinbad" are the following well known people: Henry Norman, Arthur Dunn, Edwin Foy, Dan Hart, Spencer Gracey, Henry McKisson, Louise Elising, Ida Mullie, Jessie Villars, Frankie Raymond, Annie Dacre, Emma Mullie, Bessie Lynch, and Nellie Lynch.

The brilliant little comedienne, Patti Rosa, comes to the Temple next Thursday night and will be seen in her comedy, "Dolly Varden," in which she is

popularly credited with having made the greatest hit of her merry career. It is generally conceded that Patti Rosa is at the very head and front of her line in the profession. Indeed in the retirement of Lotte, no one is left to dispute supremacy with her. She is essentially a comedienne and is fitted by

nature and by temperament for assuming comedy roles. She is said to have an excellent company which includes Mr. Will Mandeville, who was recently the principal comedian in "The Little Tycoon" and Mr. Joe Cawthorn one of the best dialect comedians. Others in the company are John W. Dunne, Gerald Griffin, Edgar S. Halstead, Marcus Moriarty, Grace Gayler, Clark, Carrie Francis, Fannie E. Jacobs, and others. The engagement is for one night only.

"The Solicitor."

Henry E. Dixey, the talented comedian, and a competent company of players under the management of Chas. Frohman, will be seen at the Temple Saturday evening, April 23, in the three-act farcical comedy by E. H. Darnley, entitled "The Solicitor." In the character of Gilbert Brandon, the solicitor, who, after the manner of farcical comedy heroes, gets into all sorts of vexatious predicaments, all on account of a piece of lachrymalian exuberance, Mr. Dixey is required to present a humorous picture of perplexity, preoccupation and harassment. It will be presented in connection with "The Major's Appointment," which is used as a curtain-raiser. This will be remembered by readers of the Century as a short story which appeared in that magazine some months ago. As a story it was a touching and simple bit of pathos, and dramatized and in the hands of Dixey it is said to make a delightful character sketch.

The Marine Band.

Of the Marine band, which is probably the best known musical organization in the country and which will shortly give three concerts at the Lyceum, the Chicago Mail says: "The far-famed Marine band, under the direction of its celebrated leader, John Philip Sousa, inaugurated its second visit to Chicago on a concert last night at the Auditorium. An immense audience was present and its enthusiasm was so ravenous in its desires that scores fairly doubled the program. There was a remarkable dash and precision in the execution of all the numbers, which showed thorough training and great musical ability on the part of this organization."

Stago Gossip.

William Hawthorn's new play, not yet named, will be produced at St. Paul by Jacob Litt's stock company on June 5.

Mr. Robert Mantell appeared as Hamlet in Kansas City last week, and the newspapers in that city are praising him loudly. All agree that he fills the physical picture to perfection and that he reads the lines with almost ideal care. Tradition to the contrary, it is doubtful if the world has ever seen better Hamlets than the last two generations have had the privilege to witness, and Mr. Mantell is among the best of them.—Dunlap's Stage News.

Charles Dickson will have an entirely new company next season while retaining Incoq. His tour will include a visit to San Francisco and the Pacific Coast circuit.

In the West, says an Eastern dramatic exchange, "Hamlet" is being played by a strolling company under the name, "Is His Nibs Off His Nut?"

Hoyt's "A Temperance Town" will have its first production in New York Oct. 31, at the Madison Square theater.

The fifty-three weeks' season of De Wolf Popper's "Wang" company will close in Boston April 26.

Elsie Leslie's season with "The Prince and the Pauper" ends this evening. This is her third year in this play, and through all this period she never missed a performance. Next season the little actress will appear in a new play, written for her by Abby Sage Richardson.

Ethelyn Friend, who is well known in Duluth and who was a member of the "Midnight Bell" company during the early part of this season, has been engaged for soubrette parts by R. M. Field of the Boston Museum.

SOME OF THE Dainty Creations for the Ladies' Heads.

Spring millinery is a trifle eccentric, and, therefore, not quite as attractive to the majority of persons as when it showed more conservative styles. Very few people like marked departures in millinery, and it is only to the very few that they are becoming. Once in a while there is a radical movement that looks well, but for the most part, millinery is as circumscribed as propriety, and when one goes outside of certain lines, there is sure to be trouble.

Small bonnets are admissible for ladies of all ages. They are snug and close fitting, and have less trimming than usual; but this trimming should be very handsome, and must be arranged in a very artistic fashion. The frames of some of the new bonnets are in modified toque shape, and are not stylish or becoming as many of the models shown on former occasions. The bonnet of the present sits too squarely across the top of the head to be pretty. The becoming bonnet should extend down the sides, or be finished with an arch front. The perfectly flat, round shape is trying, and while many of these will be worn, most women will accept them with a few grains of reluctance.

Some of the new shapes are covered with velvet, others are a mass of gauze in puffs, folds and platings; others are lace-covered, and some exceedingly pretty material in the way of lace broods and old-fashioned fancy Neapolitan and Tuscan are shown.

There are some flat bonnets that are perched high upon the head over the hair. In silhouette they bear a very striking resemblance to an old-fashioned flat saddle. They are very elaborately filled in under the front and back edges with platings, puffs, ruchings and gay plumes. There are velvet strings which tie under the chin in a bow. Some of the velvet strings have the effect of stirrup straps, and are not, as a rule, becomingly arranged.

It must not, however, be imagined that ladies are under obligations to wear these eccentric bonnets.

There are pretty, close-fitting shapes which have scarcely been out of market for a score of years. One style, especially, has been seen so often that the remark has frequently been made that it must be old enough to vote, even if its wearer could not. It curves down over the sides of the head, is slightly rounded up in the back, and has a brim turning out a very little at the top and sides. The trimming is of loops of velvet, small plumes, rolls or bows of ribbon, and as the season advances will be of flowers and foliage.

There are some very pretty hats with moderate high crowns, rather narrow brims rolled up at one side. A spray of flowers or plumes is set under the turned edge of the brim, and the hat is trimmed with loops of ribbon, flowers or knots of velvet or lace, and sometimes all of these materials massed together. Round hats will be popular. The brims may be bent in, curled over, and tucked up in all sorts of fanciful fashions, or they may be left straight and flapping. Young ladies will wear hats in preference to bonnets for all ordinary occasions, and in many cases for dressy wear. Children's hats are wide-brimmed, round and very simply trimmed with flowers and ribbon.

THE ROBES OF SORROW.

How to be in Fashion Even When Plunged in the Depths of Unsolace and Grief.

Customs and Rules For Selecting the Form in Elegant Robes Telling of Inward Sorrow.

Some of the Beautiful Suits of Sable That Are to be Seen in Duluth Emporiums.

Probably in no other country where mourning is worn is there so much license permitted as in this—in amount of crepe, in depth of veil, and numerous other details that have to do with the putting on of black. Custom has established a precedent and fashion has prescribed certain rules, but whereas the rules are observed with the greatest conservatism in European countries, here, in this matter, like many others, the individual assumes the right to decide for himself.

American women are not usually averse to wearing mourning, but most men regard the custom, if not with abhorrence, at least with indifference. Not long ago a gentleman said to the writer: "I don't want my children to put on mourning for me. According to my religion they will not be orphans; our separation will only be a temporary one."

Mourning garments may be said to be in general favor, however, and they are made with as great regard to style as any others. Paris dictates in this department, and it is astonishing to find how great a variety is possible under the restrictions that mourning naturally implies.

Bombazine is very nearly a thing of the past, and Henrietta cloth is most undeniably a thing of the present. The latter is manufactured in three or four different weights to suit different times of the year, the prevailing fancy this spring being for fabrics with crepe-like finish. Wool crepe and crepe cloth are frequently chosen for mourning gowns, and in their use the eye is greatly relieved from the plain, solid black.

There is a greater variety in black fabrics than a superficial observer finds, and it is quite possible to dress coolly in summer, although many aver to the contrary. A new material in silk and wool, which is light in weight and yet strong, is called "carmelle." It suggests nun's veiling, but is finer and has a more silky appearance. Clairette is another fabric that should find favor for summer wear. It is very light and has a decided sheen, not unlike India silk, which should also have a certain patronage as soon as the deepest mourning is laid aside. Clairette has the additional recommendation of shedding the dust and being easily shaken out if wet. There are all-wool challies and those with a silk warp, besides mousseline-grenadine, a silk and wool material that drapes exquisitely. Striped and plaid all-wool lace dresses have a certain vogue in lighter mourning, but it should be remembered that anything figured or bearing any suggestion of novelty is not permissible in regulation mourning.

As simplicity is good form, tailor-made gowns are frequently chosen for street wear. For these, Henriettes, imperial serge and draped Toulon cloths are used. The latter is a diagonal weave, not perhaps light enough in weight for summer wear, but one that answers capriciously for spring. Algerine is another diagonal, the line being in silk.

Crepe is the expensive feature of mourning. Unless of good quality it is not durable, and even when of the best it is necessary to treat it with some care. In planning a dress where crepe is to be used it is best not to put it where there is danger of its being severely rubbed, as, for instance, at the back or the lower part of the sleeve. Although there is nothing so desirable for trimming as crepe, it has been rather voted against for the last few years. Many, it is true, cannot afford to wear it, and will doubtless feel regret that it has again come to the fore, as it most certainly has. The veil of nun's veiling has almost put out of existence the crepe veil, yet no woman is really in fashionable mourning who does not wear the one of crepe. Neither the crepe veil nor one of nun's veiling is often worn over the face. Women were in the habit of covering the face with either of these there would be reason for raising an outcry, for anything so heavy must naturally be unwholesome. Those manufacturers who have the means of knowing say that there is no more danger from crepe than from other fabrics that are as thick, and they absolutely deny that arsenic is used in the dye.

On the subject of the veil it may be said that when made of crepe, it is laid in box plaits or gathered together at one point at the back of the hat and allowed to fall in graceful folds. The height of fashionable elegance is to have it reach, almost, if not quite, to the bottom of the dress. A tulle veil, with a border of crepe, is worn over the face. When one of nun's veiling is worn it is usually pinned over the bonnet. Of these there are some with three-inch borders woven in the material; others that have borders on four sides, and still others that are hemstitched.

In Paris the taste of a woman is considered questionable who goes to the theater dressed in deep mourning. Here individuals are likely to follow their own will, regardless of public opinion. Probably real feeling affects no more the bereaved in one country than the other.

As sorrow presumably produces a thoughtful and reserved demeanor, crepe gowns, cut in the latest mode for dinner and reception wear, seem rather incongruous, but where fashion decrees most women are ready to obey. Very rich armure silks and bengalines, manufactured especially for mourning use, are frequently combined with crepe for these dress occasions.

The tea gown—not fairly for real reception use, but rather a dress for home wear—may be very suitably made of a dead black woolen material, combined with crepe.

The jacket is a favorite outside garment in spring, but the favor in which capes are held makes them also desirable for mourning. On these crepe is used as trimming, forming a yoke in the back and an outside facing to the front. Bonnets are small and made of little more than a bit of crepe and a handsome jet aligrette. Hats preclude all possibility of wearing a veil and are worn only by young girls.

There Too. (Chicago Daily Tribune.) The angel Gabriel (preparing to sound last trump)—Silence, now!

Excited Young Man—Hold on just a second! I've sent a boy for my kodak.

THAT SET OF TEETH.

It was only a few days ago that the prettiest woman on earth, in my opinion, my own sweet Kitty, had promised to be my wife, and I was now going, with joy at my heart, to buy the token of our mutual love.

I was roused from reflections like these to find myself in a jeweler's shop, with the attendant displaying before me a tray of engagement rings.

I chose a very nice one of rubies and diamonds, and slipping it on my little finger I hurried back to my rooms in Regent street for I must explain that I was then acting as qualified assistant to an eminent London dentist whose practice was there, and that I occupied the rooms over the professional part of the house.

When I had finished my dinner on the evening in question I thought I would send off the ring to Kitty, and remembering that I had no jeweler's box to send it in I ran down to the surgery to get one of the little white boxes in which we were in the habit of sending away sets of teeth.

While I was there I noticed a new set of teeth which had been finished in a hurry that afternoon, as their owner, Mrs. Langham, was anxious to have them as soon as possible, so I took them, with another box to send them in, with me upstairs, and making up the two packets I wrote to Kitty, saying how sorry I was that I could not go down to see her for a few days, as my principal had gone for his holiday.

I had just finished this letter when a chum of mine burst into the room and said he wanted me to go to the Alhambra with him to see the new ballet.

I sat down again and hurriedly addressed one parcel to Miss Wilson and the other to Mrs. Langham in Portland place. We then went to Leicester square, posting my letters on the way.

The following afternoon I was told that the gentleman wished to see me, and on going downstairs I found the husband of the lady to whom I had sent the teeth the day before with the box containing them, as I thought, in his hand.

Without giving me time even to wish him "good afternoon," he burst out hotly: "By what right other than your own vile impudence do you dare to send presents to my wife?"

I tried to interrupt him, but before I could get a word out he threw the box on the table with a violence that burst it open rolling Kitty's ring to the floor.

I had evidently made the awful mistake of addressing those two packets wrongly last night and could quite understand Mr. Langham being annoyed.

I told him as quietly as I could how I had sent off the two packets the evening before and that as they were exactly alike in appearance I had most likely reversed the addresses.

Our interview lasted about ten minutes longer and ended, I am glad to say, amicably.

As soon as Mr. Langham had gone the full force of the horrible situation struck a chill to my heart? What a fool I had been to address those parcels so carelessly!

Sending the ring to Mrs. Langham did not matter much, it had only occasioned a passing squall, but even if it had cost me my place, what was that compared to losing Kitty—my whole life's happiness—by sending her a set of false teeth?

Could she possibly look at me again after that?

Come what might, I must go down to Norwood and see Kitty, or least try to see her. I must know my fate as soon as possible.

I just got there in time to catch the 4:15 to Norwood, and on arriving at my destination I walked the half mile between the station and Kitty's home as quickly as I could.

When I got to the door, however, my heart seemed to sink into my boots, and it was only by screwing up my courage and making a big effort that I managed to raise the knocker a little way and let fall with a gentle tap.

Imagine my surprise when the door opened to see Kitty standing in the hall beaming with smiles to receive me.

She could not possibly have received those horrid teeth after all, I thought. I was paralyzed my speech folded in my arms without a word.

It was but short-lived happiness, however, for no sooner had we gone into the drawingroom and seated ourselves together on the sofa than she exclaimed: "What an old darling you are, Bob, to want to marry me when you knew all the time that I had to wear those nasty false teeth! I ought to have told you myself long ago, but I was afraid of losing you, and I hadn't the courage."

"Sending me the new set was such a nice way of telling me that you knew my secret. I think they are beautifully set; but how did you get them to fit so well? They are ever so much more comfortable than the others."

"Look, dear! I've got them on now," and opening her mouth she disclosed Mrs. Langham's 20-guinea set of false teeth.

Her words struck me like a thunder-clap. Could it be true? Those lovely teeth I had so much admired? Mine, whose soul revolted at the idea.

In my eyes she had suddenly changed from a goddess of love to a designing woman of the world.

Recalling from her into the middle of the room.

"Miss Wilson," I said, "till this moment I had not the slightest idea that your teeth were not your own. I sent you the ones you are now wearing by mistake; this engagement ring," taking it from my pocket and showing it to her, "is what I intended to send you. Under the circumstances I think I am justified in keeping it myself!"

So saying I fled from the house, slamming the front door behind me in my anguish, not loud enough, however, to drown the shriek that reached me as I rushed down the steps.

I have a practice of my own now, but the lesson I then received makes me studiously careful when I send away a set of teeth.

Why She Called the Doctor.

Baltimore News: "Some people have very remarkable ideas as to the duties of men of my profession," said a Baltimore doctor the other day. "Not long ago I was called to the house of one of my patrons who sometimes looks too long on the wine when it is red. I found his wife in considerable distress, and she greeted me with:

"Oh, doctor! I'm so glad you've come. Sam's on another one of his awful sprees and he's locked himself in a room upstairs. He has a double-barreled shotgun and he swears he'll kill the first person who comes in the room. Now I want you to go up there and take the gun away from him, and—"

"I didn't wait to hear the rest of it. I had business elsewhere that needed my immediate attention, and Sam may still be holding the fort for all I know."

HE ASKS JUSTICE.

James B. Young, Until Recently Executive Clerk of the Senate, Demands Fair Play.

He Stoutly Denies that He Ever Betrayed Any Executive Proceedings of the Senate.

Now Asks a Certain Senator to Make His Charges Outside the Senate Chamber.

WASHINGTON, April 18.—Mr. James B. Young, who was recently removed from his position as executive clerk of the senate, has written a long letter to Vice President Morton, in which he reviews the circumstances of his dismissal from the office. Mr. Young states that he was taken occasion to deny in the most emphatic way that he ever in any manner betrayed any executive proceedings of the senate. He also cites his letter to Senator Cameron, in which he refuses to resign, and asks for an investigation by the senate of what he understands he is charged with. In the letter to the vice president, Mr. Young states that his resignation would have been an admission of guilt, hence his refusal to resign. Mr. Young's letter concludes:

"In my right as a citizen, absolute justice is as sacred as the dignity of the senate and if I cannot obtain it at that august tribunal, I can appeal to one even more august—that of my countrymen. This I now do through you. During the debates in the senate and the myriad publications in the press, I have maintained absolute silence. I felt that in writing to Senator Cameron my duty as to self vindication was done. I have approached no senator for aid nor sought in any way to influence the act of gentlemen—so many of whom have become dear to me through years of friendship and association. When friends advised me to poll the senate and make some kind of campaign, as is often the custom when matters are at issue, I said that I asked no defense, no exculpation, no palliation, no appeal for mercy. My enemy who would do it in my name. I simply asked cold, unsparring justice.

"Two weeks passed and the senate resumed my case. After that time, under pressure of a portion of the committee on foreign relations, a resolution was passed declaring my case vacant. The senate which passed it was so small that a quorum was obtained with difficulty, so ends my fight for justice. All I asked from the senate was an inquiry. This a slim, reluctant majority denied. Because I declined to accept the advice of Senator Cameron and resign, my office has been declared vacant. All I ask now is, that one of the senators who has pursued me in private should waive the constitutional privilege of immunity for words spoken in debate and allow me a responsible opportunity for charges made during the afternoons of angry debate. I shall then be in the open and able to defend myself. I can promise a swift and decisive answer, one that will satisfy the country. This is an open and a fair play, and fair play, I can not believe that this is made in vain.

"I have but one word, and that is of gratitude, to the many friends in the senate who stood by me to the end. Life will be barren indeed, if I am not permitted some day to show my appreciation of so much confidence and good will. I was proud to enter the service of the senate; I am proud of each and every day that I spent there. On varied friendship thus vouchsafed to me, not only of great men gone, but of great men who remain, to show the executive office of senator can have no higher attribute than the administration of justice, for which we are told time is a temple and all seasons summer. I am no less proud of the universal expression of friendship and appreciation which has attended my loss of it."

COL. SHEPARD REPUTED.

New York Republicans Condemn His Attacks on the Catholics.

NEW YORK, April 18.—The attacks on the Catholic churches which have been appearing in Col. Shepard's Mail and Express have caused the Republican leaders considerable annoyance. The matter was brought before the Republican county executive committee at its last meeting by the reading of the following letter from Senator John Sherman:

Senate Chamber, Washington, April 12.—Dr. Michael Walsh, Dear Sir, Yours of the 11th inst. received. I have read the extracts you refer to, from Col. Shepard's paper, and have no hesitation in saying that he does not represent the views of Republicans but only his own. I think no Republican desires to interfere with a man's religious convictions, nor should this question enter into any respect into the domain of party politics.

OUTRAGED IN A PULLMAN.

Two Ladies Repeatedly Insulted in a Pullman.

ST. LOUIS, April 18.—Passengers who reached this city last night over the Illinois Central from New Orleans, tell of a dastardly outrage perpetrated on the St. Louis Pullman sleeper Saturday night. Two ladies, en route from New Orleans to their homes in Ohio, were, it is alleged, repeatedly insulted in the most brutal manner by a cotton broker and a lawyer, both of Grenada, Miss.

The men were drinking heavily and the defenseless ladies appealed to the Pullman conductor and porter for protection. When the trainmen attempted to interfere, the broker is alleged to have driven them from the car at the point of a pistol. The ladies were then insulted all through the night. The affair is under investigation by the railway officials and the miscreants will be severely dealt with.

Woodruff Acquitted.
LITTLE ROCK, Ark., April 18.—The jury in the case of ex-Treasurer Woodruff charged with embezzlement of state funds, this morning returned a verdict of not guilty. This was the second trial, the jury at the first failing to agree.

THEIR EASTER GOWNS SEIZED.

Twenty Chicago Women Who Were Broken Hearted Yesterday.

CHICAGO, April 18.—Stuart Charles Wade, the young Englishman who recently horse whipped J. A. Cummings, manager of Modiste Kate Reilly's New York establishment, took a further and dreadful revenge on the dressmaker Saturday night. The horse whipping was the result of the discharge of Mrs. Wade, who claimed to have been enticed from London under false pretences. Mrs. Wade submitted a bill for \$200 for services, which was entirely ignored.

Saturday was the busiest day of the year in the Kelly establishment. Toward evening a score of Easter gowns were ready for delivery. Just then a constable and Mr. Wade entered the house and attached the gowns. Miss Oddie, the manager, first stormed and then pleaded, but Wade was relentless. She offered to settle, but he said she must settle in court. He wanted a patron wagon to drive up and take the goods, and Miss Oddie was to drive her to the proposition. Then he compromised on a cab. The costumes in design and make were magnificent and finish, and there twenty broken hearted women who had no Easter gowns yesterday. An artistic gown for Mrs. Elliot Zeborowski was among the robes seized.

DID HE PLAY LEAP FROG?

Another New York Clergyman Has Made the Rounds.

NEW YORK, April 18.—Dr. Benjamin F. Decosta preached on "municipal reform" in the church of St. John the Evangelist, on Waverly place yesterday, and in the course of his remarks said that although he differed from the manner in which Dr. Farish had taken to eradicate the social evil, he had no doubt the gentlemen were sincere, and had already been the mean of doing much good.

Dr. Decosta said that since Dr. Parky's crusade began he had personally visited two or three of the disorderly houses named, among them Hattie Adams, going, as he said, as an ambassador of Christ in the house he said, he had been received with respect, and after praying with the inmates and reading a portion of scripture, he felt invincibly that his visits had been the means of at least making the women think of a purer life.

DOINGS IN CONGRESS TODAY.

Senator Davis Introduces a Bill Regarding Suits by Aliens.

WASHINGTON, April 18.—In the senate today Mr. Davis introduced a bill to provide that the existing law conferring jurisdiction on the circuit courts of the United States of controversies between citizens of a state and aliens shall be extended to any alien resident in the United States who has declared his intention to become a citizen of the United States but who has not taken out his final naturalization papers admitting him to citizenship.

The communication of James R. Young, late chief executive clerk, was laid on the table. The senate then proceeded to the consideration of a bill to amend the calendar and at 1:35, on motion of Mr. Sherman, went into executive session.

The senate in secret session confirmed a number of military and naval nominations and several fourth-class postmaster appointments. The house then went into committee of the whole on the naval appropriation bill.

THE VISIONS OF THE SQUAWS.

The Whites to be Destroyed, According to Their Visions.

EX. MEXICO, Ocho, April 18.—The last ghost dance that will ever be held in this region is now on fifteen miles from Durango, at the camp of Left Hand, a Cheyenne chief. There are over 200 dancers and twenty men and about fifty squaws are living around in trances, out of which they specify come and in late their visions. There is a large attendance of Indians, as they realize that the Cheyenne chief is gathering. The agent endeavored to prevent this assembly, but was unable to check it. There is a rumor leading to violence as in all the visions it is promised by the Messiah that he will destroy the whites and restore all the land to the Indians.

Will Plead Guilty.

ST. LOUIS, April 18.—Coleman J. Snapp has been arrested for robbing the Northern Pacific road of \$478. He was at the head of the railway's St. Paul commission department, and robbed the company by an ingenious series of forgeries by raising checks in the office. The agent endeavored to prevent this assembly, but was unable to check it. There is a rumor leading to violence as in all the visions it is promised by the Messiah that he will destroy the whites and restore all the land to the Indians.

The Earth Shook.

PORTLAND, Ore., April 18.—At 2:50 o'clock yesterday afternoon two heavy shocks were felt in Portland and points near by. Vibrations were from west to east and lasted about ten seconds in each. Many persons became frightened, when buildings began to tremble, and rushed into the street. No damage was done.

How Does He Know?

NEW YORK, April 18.—William R. Grace, president of the Home and Country Protective Brotherhood of Workingmen, sent a long communication to the Herald Saturday, in which he says: "James B. Young is a scoundrel and a liar, and as promptly as possible President Harrison or any other candidate."

A Crimean Veteran Dead.

STARTED THE ICE.

Dynamite Used on the Ice Floes at Winnipeg and the Flood Crisis Passed.

For Six Hours the Ice Swept Past the City, Carrying Everything Before It.

Boat Houses Crushed to Match-Wood, Telegraph Poles Snapped and Bridges Shattered.

WINNIPEG, Man., April 18.—The flood crisis here seems to have passed. Saturday and yesterday morning the water kept rising and extinguished the furnace in the Northwest Electric Light company's power house, throwing the city into partial darkness. Early yesterday morning the ice commenced to move below the city, and in order to relieve the pressure on the Louise bridge the Canadian Pacific railway people used dynamite freely.

This started the ice to move in front of the city, and for six hours it poured past in great volumes, sweeping everything before it. Boat houses were crushed to match wood, telegraph poles were snapped off like pipe, switch boxes were torn away, scows thrown up on the banks and portions of the piers and the bridge were swept down stream. The breakwaters above the bridge did good work in smashing the immense ice floes, thus minimizing the pressure on the piers.

DULUTH STOCK EXCHANGE.

The Market Was Firm Today But the Trading Light.

The Duluth stock exchange was quiet this morning, but there was quite a firm feeling. Cincinnati reached the highest point which it has touched during the last few days, one sale being made for \$5.25 cash. The stock opened at \$4.75 and closed at \$4.50 bid, with no trading. Wheat, \$1.00 asked and remained that way throughout the session. Cosmopolitan was unchanged at \$20.50. Clark opened at \$12.50 asked and closed at \$10.50 asked, with no trades. Great Northern opened at \$12.50 asked and went to \$10 asked, closing there. Keystone was unchanged at \$10. Kana opened at \$18 asked and closed at \$16 asked, with no trades. Lake Superior was unchanged at \$4 asked. Mountain Iron was \$55 asked throughout the session. Minneapolis was unchanged at \$11. Mesaba Mountain opened at \$20 asked and closed at \$17.25 bid. Shaw opened at \$10 asked and closed at \$9.50 asked, with no trades. Security Land and Exploration company opened at \$100 asked and \$35 bid. It went to \$50 asked and \$35 bid, closing at \$200 asked with no trades. Washington was \$11 bid, no trades.

AN ADVANCE OF ONE CENT.

Wheat Takes a Rise on the Duluth Board.

May wheat opened unchanged this morning and July wheat sold at 1/4c advance. Prices weakened slightly in the May future owing to discounting on a large increase in the visible export to be about 1,000,000 bush. There was a large amount of trading here in both the May and July futures on outside orders and the market was firmly held, despite bear news, and the force of the large visible increase were off gained strength back to the opening figures. The close was 1/4c to 1/2c above Saturday's last figure.

Following were the closing prices: No. 1 hard wheat, April, 81½c; May, 82½c; June, 84½c; July, 85½c. No. 1 northern, 80½c; April, 78½c; May, 81½c; June, 82½c; July, 83½c. No. 2 northern, 77½c; April, 75½c; May, 78½c; June, 79½c; July, 80½c. No. 3 spring, 5c; rejected, 1c. On track—No. 1 hard, 83c; No. 1 northern, 80c.

ARE IN FAVOR OF IVES.

Views of Duluth Republicans on the Governorship.

Among the interviews published by the St. Paul Dispatch last Saturday on the governorship were the following with Duluth Republicans:

T. W. Hugo—My first choice for governor is the Hon. G. S. Ives, believing him to be a gentleman eminently fitted for the office, a strong, clean man to head the Republican ticket; a man who enjoys the confidence and merits the esteem of the people of the state of Minnesota, and who would draw around him to fight under his leadership the opposing factions of the Republican party as no other man can. His candidacy would be extremely gratifying to me, and I believe he would receive a strong support from the voters of St. Louis county.

F. B. Dougherty—My preference is Lieutenant Governor G. S. Ives. I think his record as president of the senate last winter makes him the strongest man the Republican party can nominate. I consider him one of the most honorable men I ever met, and he would make a governor the state would be proud of. However, there are other good men, and I shall give all the support I have to whoever the convention may see fit to nominate.

Thomas H. Pressnell—I think the next Republican nominee for governor should come from the northern part of the state. My first choice is Hon. Knute Nelson and next Hon. Moses F. Clapp. If the candidate is to come from any other part of the state, then Lieutenant Governor G. S. Ives would be my preference above all others.

Lon Merritt—M. E. Clapp is my first choice by odds. G. S. Ives is the only Minnesota statesman who in times past seemed to have understood the importance of an early development of the northern portion of our state. It is now apparent to all that the mineral and timber interests of the state are to be an important factor in our future prospects. Hence I would sooner support a man who was broad gauge enough to see these things years ago than a recent convert.

THE TRANSFER CO. PROPOSITION.

It Will Be Submitted On Wednesday.

The proposition from the Duluth Transfer company to the Duluth & Winnipeg and the Duluth, Missabe & Northern will not be made today. Mr. Smith, whose absence last week delayed the matter, returned from Kansas City this morning, but now Mr. Chase is away and action will have to be again postponed until his return on Wednesday. Then a proposition to both roads will be submitted. The Transfer company will meet both roads just before Duluth and will furnish them trackage into the city. They will also build ore docks between Rice's Point and West Duluth. These accommodations will be offered the two roads at 3 per cent upon the actual cost with the customary wheelpage proportion for maintenance. Beyond these facts the details of the proposition are not made public. The question as to whether or not it will be accepted is a doubtful one. Mr. Fisher has positively stated that the Duluth & Winnipeg will not enter Duluth until it can do so upon its own tracks.

Municipal Court.

Twenty-one variegated specimens of humanity were gathered in the municipal court this morning. Gus Johnson, Jacob Elsom, Jas. Sullivan, Perry Farrell and Pat Connors, plain drunks, went up for ten days each. Axel Erickson paid \$12 for the same offense and sentence was suspended in the case of Jas. McGrath. Among the vags F. Sweeney, Williams, Dan Hurley and Arthur Lewis pleaded not guilty and will be tried this afternoon. John Willis went up for five days and sentence was suspended in the case of Jim Kelly, Geo. Fenton, Jas. McGraw, John Henderson and Jas. Brody on condition that they get work immediately or leave town. James Bergman was fined \$12 for using abusive language.

Church Additions.

On Easter Sunday the names of the following persons were added to the church roll of St. John's English Lutheran church by the holy rite of confirmation, or renewal of faith: Daniel Johnson, Albert Medahl, A. Ralph Miller, E. Maud Miller, Nellie A. Sanile, Albert Mickelson, John Lindblad, Tina Hall, Phil Bayha, Mrs. T. O. Hall, Ida A. Miller, C. A. Holt, Mrs. Minnie Stenson, August Erickson, Mrs. Anna Erickson, Charles F. Hoffman, Mrs. Hildegard L. Hoffman.

CITY BRIEFS.

The Data will issue its first number on Friday or Saturday of this week.

A daughter was born to S. E. and Ida J. Peachy, this morning at 19 East Third street.

A son was born to Antheine and Obeline Sabourin at 1024 Michigan avenue west yesterday.

A permit for a \$1500 2-story frame residence on Nineteenth avenue west has been issued to Charles L. Pauly.

A two-weeks old infant belonging to M. Hancock and wife was buried from the Catholic cathedral this morning.

Samuel Gilbert, of St. Paul, of the firm of Gilbert & Co., western agents for the Aetna Chemical Fire Engine company, is in the city today on business.

The third annual ball of the Cigar-makers' union takes place at Turner hall this evening. The committee on arrangements have spared no pains to make it a complete social success.

Andrew Olsen, who was hurt twelve days ago at Oxn's camp in 58-17 on the Mesaba, died last night at St. Mary's. The body is at Durkan's awaiting interment and the action of the coroner.

An extension of the time for the receiving of bids for the rental of a building for the Duluth postoffice will probably have to be granted. The five year "more or less" lease is not particularly attractive. Inspector Childs is in the city today attending to the matter.

The Weather.

The Weather.
C. S. WEATHER, DULUTH, MINN.
April 18.—A storm of considerable energy is on
the move from the west, moving northeast,
and will probably pass to the Ohio valley today.
The general direction of the wind over the
northern part of the United States today was
northwest, only a very few exceptions to the
rule being observed.

Rain is falling over the Southwest extending
east to the Ohio valley, and has been heavy in
some places. At Duluth it has been steady
since 10 a. m. and has been falling since 10
a. m. while half an inch has fallen in the northern
part. All the Northwest has been raining since
this morning, north of Montana.

Summer has set in over Kansas where the
temperature this morning was 72°, the highest
morning temperature reported this season and
the lowest point it reached during the past
twenty-four hours was 62°. At Chicago it was
62° and from that region down to 30° at St. Louis.
The highest point reached by the thermometer
here yesterday was 42°, the lowest last night
30°.

DULUTH, April 18.—Local forecast for Duluth
until 8 p. m. April 18: Fair; slight change in
temperature.
B. H. BRUNSON,
Observer.

WASHINGTON, April 18.—Forecast till 8 p. m.
Tuesday: For Wisconsin: Generally fair, but
low, with showers in the north and west; in
the south, generally clear, with a few clouds
in the west. For Minnesota: Fair, followed by showers
in the extreme west, north and west.

THE PRICES OF WHEAT.
The St. Paul Pioneer Press is engaged
at present in the laborious task of proving
that the farmers of the Northwest are
being robbed of about 10 cents on each
bushel of wheat by the grain shippers of
Duluth. It is hardly conceivable that the
Pioneer Press is in this matter anti-
mated by any feeling of hostility toward
the Duluth grain men. It is more likely
the work of the able theorist who assists
Mr. Wheelock in conducting the editorial
page and who is always ready to
prove that he knows more about another
man's business than the man does him-
self. It is from this standpoint
that he has been handling the
wheat question. He inflicted upon the
public a four-column mass of statements
and figures on wheat prices, and mixed
them and juggled them in the most reck-
less fashion to show that the farmer is
being robbed. Probably few persons
read the lengthy article, the majority
contenting themselves with glancing
only at the introduction and the conclu-
sion.

Like all theorists, however, this writer
omitted from his calculations several
items of expense which were he actually
engaged in the grain business, he would
naturally have included. Mr. R. S.
Munger, of this city, saw these omissions
and sent a communication to the Pioneer
Press, which was published last Saturday.
Mr. Munger is thoroughly conversant with
this subject, and is qualified to speak
with authority upon the cost of trans-
porting grain from Duluth to Liver-
pool. He took the month of September,
1891, when the price of Duluth No. 1
hard was 94.5 cents, or 93 cents per
bushel for No. 1 northern. The Liver-
pool price for the month was \$1.25, or
about 35 cents per bushel higher than
the Duluth price. Now, what becomes
of this 35 cents? The Pioneer Press
could only account for a little more than
25 cents of this difference being expen-
ded in transportation charges, and, of
course, jumped to the conclusion that
the Duluth shipper put to costs into his
pocket for every bushel that he ex-
ported. But, Mr. Munger pointed out,
if you buy a cargo of wheat in Duluth
in September, or any other month, you
must pay elevator charge of 1 1/4 cents,
insurance from time of purchase until
shipped out, weighing and inspection
out and commission. The cost of hand-
ling and transporting a bushel from Du-
luth to Liverpool is made up of the fol-
lowing items:

Total charges in Duluth, about.....	2 1/2
Lake charge, for September.....	1 1/2
Insurance on lake passage.....	1 1/2
Total charges in Liverpool.....	5 1/2
Cost of freight, it cannot reach canal until October.....	4 1/2
Total charges in New York, including commission.....	24
Terminal charges, Liverpool.....	1 1/2
Price in Liverpool, 24 cents lower than Duluth.....	24
Interest and exchange, same two items in the average time consumed in shipping a cargo to Liverpool.....	1
Total expense.....	33 1/2

The difference between the Duluth
and Liverpool prices was 35 cents.
Deducting 33 1/2 cents from this, it will be
seen that there is a net profit of only 1 1/2
cents. Mr. Munger called upon the edi-
tor to point out any excessive figures in
the above table. This he has not done,
because it is impossible as every grain
shipper is aware, but he has endeavored
to riddle Mr. Munger's figures by assert-
ing that "in this age of the world, when
the telegraph governs all commercial
transactions to a large extent, and par-
ticularly so the grain markets, no one
should think of comparing Duluth prices
in one month with Liverpool prices of
two months later." Nothing could more
clearly expose the utter ignorance of the
theorist concerning the actual method of
selling grain in the foreign markets than
does this assertion. The fact is that a
fair comparison cannot be made between
Duluth and Liverpool prices on the same
date, because the shipper can get only
the price that prevails at Liverpool when
his grain reaches that market, and if he
buys at Duluth today at a certain price
which may be 35 cents lower than the
Liverpool price today, he runs the risk

of finding that, when this shipment of
wheat reaches Liverpool two months
later, the price there has fallen 3 or 4
cents and his margin of profit has been
wiped out altogether. On the other
hand, the Liverpool price may have
risen a few cents, in which case his
profit would be increased. Taking the
whole season, however, it will be found
that the average margin of profit is about
the amount figured out by Mr. Munger.

If the Pioneer Press theorist can point
out a way by which the Duluth shipper
can avoid this risk, and if he can induce
the purchaser in the English markets to
buy in September, at the then cash
price, wheat for delivery in November,
he will receive the thanks of every Du-
luth grain shipper.

A REASONABLE DEMAND.
The Duluth Republicans will have an
opportunity this year, if they exercise
good judgment and avoid fighting
among themselves, to make their influ-
ence felt in the state conventions. When
Minnesota was so overwhelmingly Rep-
ublican that any man who got a nomi-
nation on the state ticket was sure of a
big majority, the delegates from St. Louis
county received little or no recognition
in the state conventions. Things are
changed now. The Republican majority
has disappeared, and in the last state
election it had dwindled down to a
scant plurality. St. Louis county's Re-
publican vote saved the head of the
ticket from defeat. It may be the means
again this year of electing a Republican
governor. The party leaders know this,
and they recognize that if this county
demands anything reasonable it should
be granted.

It is therefore almost certain that if
the St. Louis county delegation go to St.
Paul thoroughly united and seeking
something definite, they can secure it.
There is apparently no desire on the
part of any one here to obtain a place on
the state ticket. Duluth would rather
have a congressman. But there are
some honorary positions to one of which
Duluth is entitled. The name of Sen-
ator F. B. Daugherty has been men-
tioned as one of the delegates-at-large to
the national convention at Minneapolis.

There is no one that will question his
fitness for the position, and certainly no
Republican in Duluth will dispute the
statement that he deserves it for his long
and freely tendered services to the party
in this county.

Mr. Daugherty's friends are anxious
that he should receive this honor, and
why should not the St. Louis county de-
legation demand that the position be ac-
corded him? If they will let the con-
vention distinctly understand that Du-
luth wants one of the delegates-at-large
and that Mr. Daugherty is their unani-
mous choice, The Herald believes that
their demand will be acceded.

A couple of weeks ago the St. Paul
Pioneer Press published interviews with
residents in all parts of the state, which
represented that Republican sentiment
is largely in favor of Knute Nelson for
governor. The St. Paul Dispatch of
Saturday published numerous inter-
views on the same point, and the ex-
pression was in favor of Gideon S. Ives
for governor. The Minneapolis Tribune
is now at liberty to secure another ex-
pression of sentiment to prove that John
Lind is in the lead.

The vindication of Gen. Nettleton by
the attorney general's report and the ex-
penditures at Ellis Island will be re-
ceived with pleasure by the general's
many friends in Minnesota. There was
no one in this state who believed that
the general had done anything dishonorable,
and this report happily confirms the
good opinion which every one has enter-
tained of him.

The resignation of Rev. Dr. Ringland,
the popular pastor of the First Presby-
terian church in this city, will be learned
with regret. Dr. Ringland has done
much to build up the Presbyterian church
in Duluth, and been always foremost in
all good works.

Congressman Harter said recently
that if Jefferson were alive he "would be
the most uncompromising civil service
reformer in our ranks." In that case he
could not get the support of the Hill
Democrats.

TEN PHYSICIANS TRIED.

BEST MEDICAL SKILL FAILED TO
RELIEVE HER.

Mrs. Bailey was Forced to Walk the
Floor all Night—Finally a Simple
Method Restored Her to Health—The
Case Reported—Prof. Phelps' Dis-
covery.

No class of society and no occupation
is exempt from a great increase of sick-
ness in the spring months.

And this year, as a result of the terri-
ble epidemic of grip, finds people espe-
cially susceptible to the changing of the
seasons. The blood is impoverished and
scarcely competent to resist the invasion of
impure, the nerves are weakened and
unstrung, and all the physical organs
seem to be "on a strike."

The general cry of the
doctors in March, is
"purify the blood."

A remarkable case is
reported by Dr. Vander-
burgh in recent issues of
the medical journals, and
a simple but the most
effective spring medi-
cine is recommended.

This pure remedy that
cures the worst form of
blood diseases, is recom-
mended by the physi-
cians, that will most quickly and
effectually restore the
system to health, give strength to the
muscles and create normal action in the
physical organs.

Dr. Vanderburgh's report, omitting its
technical terms, is as follows:
"Mrs. L. S. Bailey, of West Potsdam,
N. Y., is a woman who for the last twenty
years has been afflicted with scrofula. At
first small blotches broke out on her
head, and in a short time her whole body
was covered. She faithfully tried the
best of medical skill, consulting some
ten physicians, but none of them helped
her. At night her whole body itched so
that she was often forced to walk the
floor nearly all night."

"The various patent medicines, such
as sarsaparilla, ointments, etc., that are
advised for the cure of this disease,
were tested. Still further discouragement
was the only result.

"Acting upon the theory that blood
diseases are caused by weakness of the
nervous system, I prescribed that stand-
ard nerve and brain food, Paine's
celebrated compound, with the exception of
one spot on her arm, and that is fast
going away."

Many things have been recommended
to give strong muscles, pure blood, vig-
orous health and firm nerves. But it re-
quired something more scientific, more
advanced, than the ordinary nervines,
sarsaparillas and cheap decoctions.

A discovery was made by the eminent
Professor Phelps, of Dartmouth, Paine's
celebrated compound was the result, and it
is today the best "spring medicine" in
the world, ensuring health, happiness,
and long life.

Tonight "Sinbad" will have its first
production in Duluth, and the seats al-
ready sold show that the engagement
is to be one of the most successful in the
dramatic history of Duluth. The prin-
cipal dancing feature of "Sinbad" is the
winter ballet. The diversions of the
company by a large and perfectly trained
corps de ballet of the organization, led
by three premier dancers. The ballet is
quite unique in idea and treatment; the
corymbes are attired to represent snow
flakes, icicles, sleighs, skaters, tobog-
gans and other features of the winter
time, and the final ensemble takes place
amid a realistic snow storm, which is
made a very beautiful picture by the use
of varied colored lights which tint the
falling snow flakes and heighten the pris-
matic effects of the costumes. The
ballet, occurring in what the
scenic artist and play bills call a frozen
ballet of diamonds.

WILL CROSS THE CANAL.

A New Terminal Company Will Offer to Build a Tunnel Under the Ship Canal.

And to Open Railway Communication With Minnesota Point—Details of Their Proposed Scheme.

Their Proposition, in Full or in Part, to be Submitted at Tonight's Council Meeting.

The vexed question of terminals which has been so much discussed of late will in a measure be solved by a proposition which will be submitted to the council at its meeting tonight. This proposition has been several times hinted at by the Herald, but only now is it permitted to give any details. It is the expectation of this proposition which has prevented action on the right-of-way asked by the Red Lake Falls road. It was intended to be ready for the meeting of last week, but when this was found to be impossible enough members stayed away to prevent the securing of a quorum thus shutting off any possible action on the Red Lake Falls right-of-way.

The new scheme cannot today be given in all its details. Indeed, only a part of it has been as yet made public. It can be said, however, that it is the most important matter ever presented to the common council. A company not yet formally organized, but backed by Eastern and foreign capital to a very large amount, will ask the council for a right-of-way along the line suggested by the Red Lake Falls road and along St. Croix avenue to the canal. In return for this benefit, the company guarantee to construct and maintain a tunnel under the canal, built after plans acceptable to all parties interested, and they guarantee further to allow the use of their tracks to any road desiring them at a very small percentage upon the actual cost and a wheelage portion for maintenance. But this is only a part of the scheme, though this is a very important part. At the head of the enterprise is a Duluth man, who for a long time has been contemplating the matter and by whose efforts it has been developed. He for the company has secured and is now said to hold options on a large proportion of Park Point property which will be used for terminal purposes for any roads desiring it. This scheme, as will be seen, is tremendous in its effects. In a measure at least it solves some of the most important of the terminal problems. It settles the question of railway communication with Minnesota Point. It does away with the necessity of a canal bridge and renders so important the decision of the board of government engineers. It means more to the advancement of the commercial interests of Duluth than anything which has ever been proposed in the way of terminal facilities and all this is secured by a minimum concession from the city. The plan is not fully developed as to all its details, and is to be presented tonight for only one reason. The proposition made by the Red Lake Falls road is not in itself an unfavorable one, and but for the advancement of the still more favorable would doubtless be accepted. To delay action further upon it would be an injustice and to prevent its acceptance the new company has been forced to submit to last an outline of what it proposes to do. With this, therefore, the council can delay action until it has two matured propositions to decide between.

A meeting of a number of the members of the council and those interested in the new scheme was held Saturday evening at which the details were discussed and if the formal proposition comes in the same shape as the one made informally presented to them, it will without doubt be accepted.

One of two things will occur at tonight's council meeting. The proposition agreed on at Saturday night's meeting must be approved by certain interested capitalists in New York before it can be formally presented to the council. A prominent Duluthian is in New York today and a conference with the Eastern men is being held this afternoon. If their decision is favorable the whole plan with all its details will be presented tonight. If they do not reach an agreement today, only a preliminary proposition will go in this evening and the final proposition changed to conform to the suggestions of the Eastern men, will be submitted at a meeting to be held in the near future.

The council will have another important matter to consider in the difficulty over the Lake avenue contract. This whole question will be submitted to them for action. In the meantime Fredin & Wilson are at work today and are awaiting the decision of the council.

To prevent a repetition of this difficulty or to fix the responsibility in case it does happen, a resolution was introduced into the council tonight, requiring that before any contract be signed in the future, it, with all the papers relating to it, be submitted to the city attorney for his approval.

BUCKING THE ICE.

The Duluth Fleet Trying to Get Through the Ice Floe.

The S. R. Kirby and John Mitchell gave up trying to get through the ice floe and returned to this port about 6 o'clock Sunday night. The Mitchell has something wrong with her pump which will be fixed before she again goes out.

The S. B. Barker tried to reach blue water this morning. She was preceded by the tug Edward Fish, but found the wind and ice too heavy and gave it up.

The Chas. W. Elphicke and J. C. Gilchrist leave tomorrow and they will get through. The boats are good ones and their captains have plenty of sand, skill and determination and they will buck the ice systematically. The Elphicke will lead and the Gilchrist will show her through the heaviest places. They will leave in the morning.

THROUGH MUD LAKE.

Three Vessels Probably Reached the Soo This Afternoon.

SAULT STE. MARIE, Mich., April 18.—(Special to The Herald.)—The Livingstone, Sauber and E. M. Peck passed St. Louis yesterday afternoon and are in Mud Lake this morning, endeavoring to get through the ice.

George Wayne, a sailor, fell into the Northern Pacific slip about 7:30 this morning. As usual with the slip, he could not swim, but for the help of some passing dockmen he would have been drowned.

The fire tug David Sutton is now ready for business. She was launched with the Lida Saturday.

La Salle & Wolvin, the well known vesselmen of this city, have a large monetary interest in the new steamer Tuganda launched last Wednesday.

Duluth lights shone out Sunday night. The ice is reported all gone above here.

Below the canal there is 13 feet 6 inches of water at the Soo. It begins to look as if a very large portion of the ice will have to be lighted.

The City of Berlin and City of Gt. West have flaxseed charters from this port to Buffalo.

The City of Paris is aground on Bar point, so is the T. S. Christie and the Chicago is hard on the point between the two.

Tom Marks is in the city. He is in the usual eloquent manner. The choir rendered the Italian mass in a very creditable way. The little church on the hill proved too small to admit the number of strangers that wished to attend as well as pewholders, and a great number did not gain admittance.

MINNESOTA POINT TERMINALS.

The proposition outlined by The Her-
ald last evening, for building a tunnel
beneath the ship canal in return for
right-of-way privileges, was not presented
to the council last night, as all the de-
tails of the scheme had not received the
approval of the Eastern capitalists inter-
ested. It is certain, however, that all
the details will be satisfactorily arranged
this week, and the proposition will reach
the council next Monday in a definite
form. This much was stated in a com-
munication to the council last night
from W. C. Sargent, as a representative
of those who are behind the undertaking,
and consequently further action on the
Red Lake Falls road's right-of-way was
postponed for a week.

It can hardly be claimed that this brief
delay will be any serious hardship to the
Red Lake Falls people. If their plans
are so fully matured as they claim, and
if they are acting in good faith in be-
ginning condemnation proceedings
against East End property through
which to obtain a right-of-way to St.
Croix avenue, one week's further delay
will not prove injurious to their plans.
The council could not in justice to the
interests of the city have taken any
other action at this time, when informed
that another terminal proposition would
be presented next Monday for considera-
tion. If it be true that this proposition
will contain an offer to tunnel the canal,
in return for right-of-way privileges along
Minnesota and Park points, and will
likewise contain an agreement to give
terminal facilities at a reasonable ex-
pense to all other roads desiring them,
then several very perplexing questions
connected with the terminal situation
will have been satisfactorily solved. It
has been estimated that a proper tunnel
will cost about \$1,200,000, and if any
company will agree to construct it with-
out all the expense being borne by the
city, its proposition can hardly be re-
garded in other than a favorable light.

The Red Lake Falls road de-
serves every consideration. The
ordinance granting it certain
privileges has been so amended that the
interests of the city are carefully
guarded, and there is no reason
to believe that the gentlemen
pushing this scheme will not carry out
what they say. If they do not, then the
franchise will be forfeited and the pri-
vileges granted will revert to the city. But
if arrangements can be made between the
city and other parties to build a tunnel
under the canal and to establish a com-
plete terminal system, by means of which
the Red Lake Falls can also get all the
facilities it requires at moderate cost,
then the parties who offer to enter into
such arrangements must receive the
preference.

This seems to be the attitude that Mayor
Winston, of Minneapolis, is to be the
Democratic nominee for governor this
year. Recently it was stated that Mr.
Winston would retire from public life at
the close of his present term as mayor,
but the prospect of occupying the gubernatorial
chair is an alluring one to most men,
and Mr. Winston is like the rest of
mortals. Michael Doran and other lead-
ers of the party are averse to fusion with
the Alliance and very reasonably expect
that in a three-cornered fight the Demo-
cratic ticket would stand a better show
of success. Mr. Winston has the cash
with which to make a vigorous cam-
paign, and if he is made the nominee he
will give the Republicans a lively fight.

Henry Clews, the New York banker,
in his last weekly financial review, says
that the money market has settled into
a condition of ease that is not likely to
be disturbed until next August, while
there are reasons for supposing that the
ease may continue well into or through
the fall months; for, at all the financial
centers of the country, the accumulation
of money in the banks is unusually large,
while the coinage of silver keeps up a
constantly increasing inflation of the
currency, and the lowness of prices re-
duces the requirements for money.

THE SIXTH DISTRICT.

The political situation in the Sixth
congressional district has not undergone
much change during the past few weeks.
There is nothing yet to clearly indicate
who will be the opposing candidates. On
the Democratic side Senator Keller, of
Stearns county; Henry H. Hawkins, of
Carlton; H. C. Stivers, of Brainerd, and
Mayor d'Autremont, of this city, are still
among the mentioned, but no one, except
it be the Snout Center statesman, seems
to be doing any work for the nomina-
tion. Mr. Keller has his own county
back of him, and Stearns county is the
most solid Democratic county in the dis-
trict.

On the Republican side there is not so
much uncertainty. There is one man
who has openly stated that he is a can-
didate and he is now making the pre-
liminary canvass to secure the nomina-
tion. This is Hon. H. C. Kendall of this
city, who has a reputation for getting
friends throughout the district. The
friends of Col. C. H. Graves are also
doing a little quiet work, but the colored
is not an openly avowed candidate and
does not appear to be very anxious for
the nomination. If it came to him, he
would probably accept, but he will not
run after it, according to the terms of
his nomination. No other Duluth names are
mentioned, and the probability is that
the St. Louis county delegation will be
either for Kendall or Graves. Outside
of Duluth the only person now men-
tioned is Judge D. B. Searle,
of St. Cloud, and the judge
is not lying awake
nights making plans to secure the nomination,
although his friends are of their own vo-
lition leaving no stone unturned to ad-
vance his interests in that direction.

It is safe to say that the party which
nominates a Duluth man will carry the
district. This county holds the balance
of power in the district. Eliminate its
vote, and it will be found that the rest
of the district is divided very evenly be-
tween the parties. According to the ap-
portionment fixed for the Republican
nomination of a Duluth man will have a
clear majority. The St. Louis county
delegates and their friends from the
friendly counties will have sufficient
strength to name the candidate. He
should be a resident of Duluth—a
man who is fully acquainted with the
peculiar needs of this city, and who at
the same time will carefully attend to
the other portions of the district. A good
worker is preferable to an orator, and a
man with experience in parliamentary
practice and methods should receive
support over and above an inexperi-
enced candidate.

Neither the Republicans or the Demo-
crats should have any difficulty to find a
suitable candidate possessing these
qualifications. When a Duluth man is
nominated, he should receive the loyal
and united support of every Duluthian.

The Birmingham, Ala., Age-Herald,
in referring to the action of the Minne-
sota Democrats in endorsing Cleveland
makes a vigorous protest against allow-
ing the Gibraltars of Republicanism to
force the nomination of a man who is
weaker than his party in every state in
the Union. This is sufficient to make
Mike Doran throw up his hands in holy
horror.

Hundred of tired, weary land-seekers
are now slowly returning from the Sis-
ton reservation, which their fancy had
pointed as a land of wonderful fertility
and beautiful scenery. It is a level, un-
inviting prairie, which is not specially
fertile, and it is very much inferior to the
rich, productive lands in the Rainy river
district, northwest of Duluth.

A Washington dispatch asserts posi-
tively that Mr. Lind is not and will not
be a candidate for governor. The anti-
Nelson Republicans must therefore
quickly make up their minds to boom
either Chapp. Ives or Heatwell. Joel of
course, believes that the office should
seek the man, but he is not in hiding.

DULUTH HARDWARE CO.

BY THE WAY.

How fast we live! I can remember
(and Methuselah has considerable ad-
vantage in years over me) when the Lake
Shore & Michigan Southern railroad an-
nounced its grand posters of flaring
red, white and blue that its trains would
make "eighteen miles an hour, including
stops." That wasn't more than twenty
years ago, but put that patriotic poster
of 1870 alongside the new and neat
pamphlet recently issued by the New
York Central road, which announces
that its "Empire State express makes
52 1/2 miles an hour between New York
and Buffalo," and the ancient specimen
of printing is clearly "not in it." Well,
there is clearly a raise in speed—a trifle
of thirty-four miles and a fraction—and
that train is the fastest train in the
world, and the fast American people
patronize it liberally.

But while the New York Central road,
for a portion of its line at least, justly
lays claim to the fastest train on the
immediate sphere, it yields the palm,
without dispute, to the Pennsylvania
railroad company for the best train
that "runs on wheels." I refer to the
peerless, incomparable, extra fare lim-
ited, which runs daily between Gotham
at Hell Gate and World's Fairville on
Lake Michigan. This train is not a slow
one—it skips along at forty-seven miles
an hour, but it's so slow for the
progressive management of the Penn-
sylvania company, which has already
given its patrons' agents, free stenog-
raphers, free nurses for ladies and chil-
dren and the finest rolling stock equip-
ment in the world.

Yes, the 52 1/2 miles an hour of the
Empire State express has been like a
red rag to an angry bull and the fur will
fly before long on the Pennsylvania
system. I don't think I violate any con-
science in giving a few facts regarding a
recent "service" trip over the Pennsylv-
ania road, in which less than twenty
people participated to determine two
things—how fast the locomotive
could haul a train; how long a run could
be successfully made without change of
engines, and some technical matters of
railroad operation, which would be
dry and uninteresting to the aver-
age Herald reader. But the trip
was made between Philadelphia and
Chicago last week in marvellously quick
time—so fast that the great corpora-
tion's management has about deter-
mined to put two trains, now running, on
a very much faster schedule, namely and
respectively at a 60 and 55 mile rate!

The "service" train in question,
equipped with speed recorders, track
registers and careful and competent
railroad heads of various departments,
consisted of three coaches, or passenger
cars, and a locomotive with four driving
wheels, 6 feet 6 inches
in diameter, with 17 1/2 by 27 inch cylin-
ders and in charge of a veteran en-
gineer, whom we will call Osborne, for
short. There were many tests of speed,
but the entire run was very fast. The
best speed for one hour, or 59 minutes
and 45 seconds, was 74 1/2 miles; but the
single mile was made near
Wayne where the speed recorders
showed the following fastest on record.
Taken when Engineer Osborne was
taking his big machine do its prettiest
work, and taken for five successive
miles: First mile, 46 1/2 seconds; second
mile, 40 1/2 seconds; third mile, 39 1/2
seconds; fourth mile, 39 1/2 seconds; fifth
mile, 39 1/2 seconds, and so on. The
fourth mile is, I believe, the fastest on
record, and indicates a rate of a little
over 60 miles an hour! How does that
strike you? And doesn't it bear Max
O'Reilly out in saying, "Entre nous; you
Americans should live slower—you live
too fast, too fast!"

THE INDIANAPOLIS BOARD OF
HEALTH

After the Ammonia and Alum Baking
Powders.

Indianapolis Sentinel, Dec. 28.

The subject of pure food, and especially the adulteration of baking powders by the use of ammonia and alum is causing no little discussion.

The legislatures of New York, Minnesota, Illinois, Georgia, Florida, etc., have taken up this question, and it is attracting the attention of physicians and boards of health throughout the country. Our own city board of health ordered an examination of all the baking powders that are on sale in this city. In his report, Dr. Latz makes an examination and analysis and reports the result to the board.

BAKING POWDER ANALYSES.
City Chemist Dr. Latz transmitted to the department of public health a lengthy communication, in which he gives the result of his analysis of the several brands of baking powders that are on sale in this city. In his report, Dr. Latz says that baking powders designated as being free from deleterious substances may be recommended, as their healthfulness cannot be questioned. The report is as follows:

The samples of baking powders you have sent to our laboratory for investigation as to the purity and healthfulness of the various brands, I have subjected to a qualitative examination, and now report the following result:

Atlantic & Pacific contains ammonia and alum.
Calumet contains alum.
Crown contains ammonia and alum.
Early Rising (Empire) contains ammonia and alum.

Forest City contains ammonia and alum.
Kenton contains ammonia and alum.
Dr. Price's free from deleterious chemicals.

Queen contains ammonia and alum.
Royal contains ammonia.
Regal contains ammonia and alum.

Ruckelshaus contains ammonia and alum.
Seafarm (made by Day, Indianapolis) contains alum.

Dr. Latz says: "Physiologists of high standing consider ammonia and alum deleterious substances, unfitted for use in foods."

WILL TURN IT DOWN

The Terminal Proposition to be Made by the Duluth Transfer Company Will be Declined.

Neither the Missabe Nor the Winnipeg Road Regard the Proposed Arrangements With Great Favor.

The Duluth & Winnipeg Will Stand By Its Own Tracks.

The probability now is that the Transfer company will submit its proposition to both the Missabe & Northern and the Duluth & Winnipeg roads, though Mr. Fisher stated that he did not know that such was to be the case and had had no notification of any such intention. As to the proposition, he declined to express any opinion as to whether or not it would be accepted, as he did not know its details and did not care to express a judgment with nothing definite upon which to base his conclusions. He repeated, however, his statement made some days ago in the Herald when he declared that the further effort to enter Duluth excepting upon its own tracks and over its own right of way. The proposition of form in which it is to be expected and interviews will without doubt be declined with thanks. The Missabe people also will decline the proposition as it will be made to them. So that the conference if one be held will not result in any benefit and the terminal question will remain in as vexed a condition as formerly. As to the merits of the Transfer company there is some difference of all good faith and is a proposition which should be accepted. On the other hand there are many who hold the opinion that the proposition is one which could not be accepted by either. In any case, whether the action be right or wrong, there is no doubt that both will decline the terms offered, and the question of a way to bring either or both of them into the city is still an open one. With regard to the location of the Transfer company docks at Allouez Bay, Mr. Fisher is reported by the Superior Evening Telegram to have said: "We receive from the land company 115 acres and trackage. The contracts have already been let for much of the work, and these will be executed as quickly as possible. We have also let the contract for the completion of our bridge across the St. Louis river, which gives us access to this city. From the bridge we get a direct route to Allouez bay. The Consolidated Land company, besides giving us a grant of land, grades and builds the road from New Duluth to Allouez bay. The Duluth, Missabe & Winnipeg road from Northern Pacific Junction to Allouez bay. The grading of the road from the bridge to Allouez bay is progressing very fast, and the iron has been contracted for and will reach here June 1. Arrangements have also been made for securing cars and locomotive stock from several contractors for the construction of the docks at Allouez bay, but work on the piling is to be begun soon.

They Come Well Recommended.
The Marquette Times has the following to say in reference to Dr. H. J. Latz, who has located in West Superior:

Dr. H. J. Latz, of the noted medical firm of Dr. Speer & Co., Saginaw and Marquette, has established an office for the treatment of special diseases, at 146 West Washington street in this city. The doctor is a graduate of the medical department of Harvard University and has practiced in both hemispheres, and has treated 8,000 women and over 10,000 men. The chain of offices now maintained by this medical firm nearly encircle the globe. A personal knowledge of the success of Dr. Speer & Co. in Saginaw enables us to state that no medical firm in the state can show an equal record of cures with them. Dr. Speer is an accomplished and wealthy gentleman, perfectly responsible.—Marquette Daily Times.

Dr. H. J. Latz, referred to in the above notice, has secured an elegant suite of rooms for offices in the New York block, corner Tower avenue and Fourth street, where he can be consulted.

Sentence was suspended in the case of Charles Murphy who will go to work.

WHEAT WAS VERY WEAK.

The Prices Took a Tumble on the Duluth Board.

First sales in July No. 1 northern wheat were made on the Duluth board this morning 1/2 cent lower than yesterday's close. May was 1/2 cent lower. The early weakness was due mainly to cable reports of dull and lower foreign markets, with buyers holding off. The amount of trading for the day was quite large, especially in the July future. There was a further break of 1/2 cent after noon and 1 1/2 cent below yesterday's figures. Following were the closing prices: No. 1 hard—Cash 80 1/2, April 79 1/2, May 82 1/2, June 83 1/2, No. 2 July 84 1/2, No. 1 northern—Cash 79 1/2, April 78 1/2, May 81 1/2, July 82 1/2, No. 2 northern—Cash 73 1/2, No. 3 68 1/2, Rejected—On track—No. 1 hard 82, No. 1 northern 80.

The weekly flour statement of production and shipments for the week ended Saturday last shows: Production, 13,612 barrels; receipts by rail, 16,160 barrels; shipments, 19,877 barrels. Flour now in store, 209,970 barrels.

Car inspection for today—No. 1 hard wheat, 41; No. 1 northern, 28; No. 2 northern, 41; No. 3 spring, 5; rejected, 2; no grade, 20; total, 993.

Receipts—Wheat, 165,039 bus. Shipments—Wheat, 730 bus. Cars on track—Northern Pacific, 31; Great Northern, 107; C. St. P. M. & O., 8; St. Paul & Duluth, 0; total 239. Corresponding date last year 81.

Here's a Department

That surprises every one who visits it. More Rich, Pretty Draperies than one would expect to find and prices within the reach of everyone.

Carpets and Draperies.

We are making special efforts in these two departments this season.

We have just added several improvements to each of these Departments and now, as completed, there is nothing in the Northwest to surpass them, either as regards show room or the immense stock of goods.

We offer for this week one special lot of Chenille Curtains—Dado—at \$4 a pair, were \$6, and one lot Irish Point at \$4.50 a pair, were \$7.50.

These only as leaders of course, but we have some more equally good things in Nottingham and Brussels. Silk Curtains, over 50 patterns and colors. Chenille Portieres, over 70 patterns and colors. Fine Reinnaissance, over 25 patterns and colors. New Drapery Silks, Figured and Plain. New Silk-lanes and Crepe Draperies. New Smyrna Rugs. New lot Byzantine Rugs. New Fur Rugs. New Moquet Rugs.

CHEERS FOR BOTH.

The Nam of Both Harrison and Blaine cheered by the Pennsylvania Republicans.

Great Confusion Caused by a Resolution Endorsing Quay, Which Was Carried.

Massachusetts Republicans Meet in State Convention and Endorse President Harrison.

HARRISBURG, Pa., April 20.—The Republican state convention was held here today. The opera house was thrown open to the delegates at 9 o'clock. The delegates found on their chairs a circular letter from Bressler, one of the minor candidates for delegates-at-large, demanding a tariff of \$30 a ton on ore and \$12 on pig iron, \$25 on railroad iron, fifteen cents a pound for wool and higher rates on cloths and silks. On this platform Mr. Bressler proposed to make his personal canvass. But very few of the delegates took the Bressler candidacy seriously. The convention was called to order by Chairman Waters of the state committee at 10:30. Secretary Frank Willing then read the call for the convention and then the roll of delegates. At the conclusion of the roll call James W. Mills, of Philadelphia, was recognized. He nominated James W. Latta, of Philadelphia, for temporary chairman. Gen. Latta was received with applause when he mounted the platform. He spoke briefly.

At the conclusion of the remarks of Gen. Latta, which were received with great applause, the temporary organization was completed by the election of minor officers. Resolutions providing that all resolutions be referred without debate and that the rules of the Pennsylvania house of representatives prevail were adopted. Then the order of business was adopted without opposition. In fact, Chairman Latta put this and minor questions so rapidly and declared the resolutions so speedily that the convention first laughed and then cheered him heartily. The committees on organization and resolutions were then appointed, and at 1:30 the convention took a recess till 1:30 p.m.

When the convention met this afternoon the committee on organization reported the name of E. K. Martin, of Lancaster, for permanent chairman. Mr. Martin took the chair and immediately delivered a brief address, recognizing protection and the other principles of the party. At the conclusion of Mr. Martin's address Chairman Magee presented the report of the committee on resolutions as follows:

"The party of Lincoln and Grant, of Harrison and Blaine, has always had the wisdom to do right and the courage to stand up for it. In Pennsylvania, on both sides of any great public question. It has never in one breath, as our Democratic opponents in Pennsylvania have done, invoked the shades of deceased statesmen, who were protectionists and shouted hosannas to protection traders. From first to last the Republican party has been true to its professions and steadfast in its devotion to public welfare. We do not hesitate to get these things because you can not well spare the money just now. Here, where we can help you, for we shall be pleased to sell you all of these things on credit."

Our Folding Beds and Office Desks are of the best makes and of all sizes.

It is necessary to say that we sell all grades of Carpets and Mattings, and at prices much lower than you have been in the habit of paying.

A BOOMER KILLED.

One Man Shot Dead and Two Others Wounded in a Fight Over Lots.

A Child Thrown Out of a Wagon and Killed by the Rushing Crowd.

Arkansas Visited by a Terrible Storm, Which Caused a Railroad Wreck.

KANSAS CITY, April 20.—Reports reaching here from the newly opened Indian lands show that there were several fatalities during the grand rush by the homeseekers and boomers. In a fight over lots in the county seat of "F" county, one man is reported as shot dead, while two others were severely wounded. El Reno reports that a child was thrown out of a wagon and killed by the following crowd, just after the people left the line at that place.

TERRESTRIAL WIND STORM.

A Tree Blown Across the Track Causes a Bad Wreck. LITTLE ROCK, Ark., April 20.—A terrific wind storm passed over Arkansas early this morning. A number of trees and outbuildings in this vicinity were badly damaged. Lightning struck several houses in the western part of the state. A freight train on the Little Rock and Fort Smith railroad ran into a tree which was blown across the track and was badly wrecked. The engineer, fireman and brakeman were probably fatally injured.

THE OREGON GOVERNOR STABBED IN THE DEMOCRATIC CONVENTION.

PORTLAND, Ore., April 20.—There were more representative men in the Democratic convention yesterday than ever before. Although the delegation to Chicago is unrepresented, every man for Cleveland and at all times Governor Penney, who is an anti-Cleveland man and has made some pretensions to being a presidential candidate himself, was ignored almost entirely. He was a candidate for national delegate, but received only three votes, and when the resolution to instruct the delegation to elect Penney as a vice president of the convention, it was carried by the friends of Cleveland.

DILLON WILL BE SHELVED.

Capt. Hayes, of the St. Paul & Duluth, to be President of the Union Pacific. NEW YORK, April 20.—The name of Sidney Dillon will be retired at the annual election of the Union Pacific Railroad company, and unless obstacles present themselves which do not now appear, Capt. Richard Somers Hayes will be elected. The chief clause of the bill enacted that the composite dollar should be established in the following manner: Designate so much of wheat, rye, oats, corn, barley, beans, potatoes, cotton, wool, butter, eggs, sugar, lard, pork, beef, tobacco, salt, leather, hemp, change of management. Capt. Hayes is now president of the St. Paul & Duluth.

MORE EARTHQUAKE SHOCKS.

SAN FRANCISCO, April 20.—An Elmhurst earthquake shock, the severe earthquake of yesterday morning was followed by several lighter ones this morning, commencing at 12 o'clock and continuing at intervals until 1 o'clock. Seven distinct shocks were felt there. No further damage is reported. Shocks were also felt at Stockton, Benicia, Sacramento and Dixon.

PRESIDENTIAL APPOINTMENTS.

WASHINGTON, April 20.—The president today sent to the following appointments: J. R. Tanner of Illinois, to be assistant treasurer of the United States; and J. A. Smith of Kansas, to be register of the land office at Kirwin, Kan.

ROTHSCHILD'S CASHIER SKIPS.

LONDON, April 20.—A dispatch from London says that H. Jaeger, cashier of Rothschild's, has absconded after embezzling nearly 2,000,000 marks. Lord Rothschild in this city says the house has no advice on the subject.

MESABA PEOPLE COY.

They Decline the Transfer Company's Proposition. The conference this morning between the Transfer company and the Duluth & Mesaba road did not give any very practical results. It is understood that Mr. Fisher did not attend the meeting and that the Winnipeg road was not represented. The proposition made was not accepted. The idea of the Transfer company is a rather vague one apparently, and contains so much water that it is impossible to see how it can be carried out. The Duluth & Mesaba road will agree to use its tracks when it has some of the lumber belonging to the Empire Lumber company, was burned last night at Empire, Mich.

BLAZE IN MICHIGAN.

TRAVERSE CITY, Mich., April 20.—A barn containing 150 tons of hay and 30,000 feet of lumber belonging to the Empire Lumber company, was burned last night at Empire, Mich.

MUNICIPAL COURT.

John Ryan, Ole Olson, Matt Halverson, drunks, were committed to the municipal court. Frank Conway and James Mulligan paid \$12 for the same offense. John Mulcahy, an old soldier, had his sentence suspended. Chas. and Anton Sadowski and John Zieniski, for violating the peace ordinance, were arraigned this afternoon. R. P. Edison is conducting the prosecution and Attorney Spangler handling the defense. There is a large number of witnesses and some of the testimony is very contradictory. The plaintiff avers that the horse in question was steadily employed in hauling cedar poles and others say the critter was abandoned and turned out to die. The case is being tried by jury.

BARON SCHAEFER DEAD.

BERLIN, April 20.—Baron Schaeffer, formerly Austrian minister at Washington, is dead.

PAID SEVENTEEN MILLIONS.

The Dubois Coal Lands Sold to the Pennsylvania Road.

DUBOIS, Pa., April 20.—A report is current here that the Pennsylvania Railroad company has bought the Dubois estate, comprising 28,000 acres of coal and timber land in Clearfield county, for \$17,000,000. John Dubois, who was made sole heir of the estate at the death of his uncle, is in Philadelphia, and the report cannot be verified. The low grade of the Allegheny Valley railroad, now controlled by one Pennsylvania railroad, runs through the tract from east to west. It is said the transfer will be made to individual stockholders of the Pennsylvania railroad.

WILL NOT WORK FOR BEN.

Col. Dudley Says He Cannot Support Harrison. RICHMOND, Ind., April 20.—Col. W. W. Dudley delivered an address here yesterday at the laying of the corner stone of an Episcopal church. This is Col. Dudley's old home and here it was that the "Blocks of Five" scheme was hatched in his fertile brain. He will leave for the East today.

Dudley refuses to talk politics further than to intimate that he will not work for Harrison's reelection in case the president is renominated. Those here who know Dudley best believe, however, that his opposition to Harrison is feigned.

FAMINE IN TEXAS.

A District Where Drouth Has Prevailed for Three Years. SAN ANTONIO, April 20.—For three years the counties of Starr, Hidalgo, Fortcas, Zepeda, Mexico and Duval have been subjected to a drouth of such severity as to render the production of the necessities of life impossible. The season for planting has passed and early crops having been killed by frost there is no hope for a relief unless summer rains should secure a light fall crop.

The losses on cattle, the principal industry of this section, are estimated at twenty per cent and in Snyces county alone 60,000 head have died. The famine district contains a population estimated at 20,000 people, and probably one-fourth of this number require assistance. The people have issued an appeal to the public for help.

A LONGSHOREMEN'S RIOT.

Irish and Italians Have a Lively Fight in Brooklyn. NEW YORK, April 20.—In a riot between Irish and Italian longshoremen at Woodruff's store, Brooklyn, yesterday, two Irishmen were shot, three Italians were badly cut and bruised and eight or ten others on both sides were slightly wounded. The following is a list of the more seriously injured: Frank Angelo, 26; Charles J. Kelly, 28; Patrick Lynch, shot in forehead; Marcello Sango, scalp wounded and bruised; Edward Murphy, shot in the back; Edward Murphy, shot in the right thigh.

There has been brewing for several months along the Brooklyn waterfront, owing to the fact that the Italians will work for almost any price.

A COMPOSITE DOLLAR.

Senator Fry Introduces a Most Remarkable Bill. WASHINGTON, April 20.—In the senate today Mr. Kyle, of South Dakota, by request introduced the most remarkable financial bill of the session, providing for the establishment of a "composite dollar." The chief clause of the bill enacted that the composite dollar should be established in the following manner: Designate so much of wheat, rye, oats, corn, barley, beans, potatoes, cotton, wool, butter, eggs, sugar, lard, pork, beef, tobacco, salt, leather, hemp, change of management. Capt. Hayes is now president of the St. Paul & Duluth.

THE FLEET IS TRYING TO FORCE A PASSAGE.

The condition of marine matters today is considerably cheering. The ice has been driven in and is packed pretty solid for some distance in front of the government entry but the big boats have little difficulty in getting through it. The outer edge of the ice is about fifteen miles down the lake or near Knife Island. The J. C. Gilchrist left port this morning and is expected to arrive here which soon took the lead. Then the John M. Nicol of the Crescent line, the Lafayette of the R. P. Edison line, the Nimick and Eber Ward followed in the order named. The Harper may yet get away today and the others will probably clear out tomorrow.

A report from the new lookout on the Seventh avenue incline says that the smoke from the northwestern outer line of the Apostle islands, but it is a little too early to look for the big boats. The smoke is probably some 100 feet from Bayfield or else pure imagination.

SAULT PASSAGES.

SAULT STE. MARIE, Mich., April 20.—(Special to The Herald.)—Up last night, J. C. Lockwood, J. A. Sturges, E. A. Hesper, 10:40. The schooner Iron State, reported grounded below Wilson's dock, was released last night and arrived here at 9 this morning.

ON THE UP GRADE.

Wheat Has an Upward Tendency in View of the Opening of Navigation.

Large Trading on the Duluth Board Today With One Cent Advance.

The Stock Market Was Quite Lively and Numerous Shares Were Changing Hands.

The wheat market here opened a little stronger this morning, first sales being made at 1/4 advance in May. The market was very steady for the first half hour on steeper foreign cables. May lost 1/4 before noon. Trading was done in large lots in the May future, but little was done in the forenoon in July. Receipts of wheat today were comparatively light and the current of navigation being open in a day or two when wheat will move east freely operates to maintain a little steadier tone in prices here than elsewhere. May, which recovered to the highest point of the session before 1 p.m., the upward tendency continued to the close, which was irregular but firm at 1/4 to 1/4 above yesterday.

Following were the closing prices: No. 1 hard cash, 82c; April, 80 1/2c; May, 82 1/4c; June, 84c; July, 84 1/2c. No. 1 northern, 82 1/2c; July, 82 1/2c; May, 80 1/2c; June, 81 1/2c; July, 82 1/2c. No. 2 northern, 81 1/2c; July, 82 1/2c; May, 79 1/2c; June, 81 1/2c; July, 82 1/2c. No. 1 hard, 82c; No. 1 northern, 80 1/2c.

Cash inspection for today—No. 1 hard wheat, 18c; No. 1 northern, 15 1/2c; No. 2, 14c; No. 3, 12c.

Receipts—Wheat, 155,358 bus.; flour, 2,096 bus. Shipments—Wheat, 112,565 bus.; flour, 274 bus. Cars on track—Northern Pacific, 16; Great Northern, 25; Chicago, St. Paul, Minneapolis & Omaha, 8; St. Paul & Duluth, 21; total, 70; corresponding date last year, 88.

OUTSIDE MARKETS.

CHICAGO, April 20.—The close: Wheat, May, 80 1/2c; July, 82 1/4c; Corn, May, 42 1/2c; July, 39 1/2c. Oats, May, 26 1/2c; July, 26 1/2c. Pork, May, 26 1/2c; July, 26 1/2c. Cattle, May, 26 1/2c; July, 26 1/2c. Sheep, May, 26 1/2c; July, 26 1/2c. Hogs, May, 26 1/2c; July, 26 1/2c.

MINNEAPOLIS, April 20.—Wheat, April closed at 78 1/2c; May, 80 1/2c; June, 82 1/2c; July, 84 1/2c. No. 1 hard, 82 1/2c; No. 1 northern, 80 1/2c; No. 2 northern, 78 1/2c.

DULUTH STOCK EXCHANGE.

Trading is Increasing Daily But Prices Are Little Changed. It was quite large today, and the market was lively. Prices are about the same as usual. The following table shows the range of prices today:

Stock.	Per Cent.	Open.	High.	Low.	Close.
Wheat.	100	82 1/2	83 1/2	82 1/2	83 1/2
Corn.	100	42 1/2	43 1/2	42 1/2	43 1/2
Oats.	100	26 1/2	27 1/2	26 1/2	27 1/2
Pork.	100	26 1/2	27 1/2	26 1/2	27 1/2
Cattle.	100	26 1/2	27 1/2	26 1/2	27 1/2

A DAY IN DULUTH.

Dr. Henry Slade, the Spiritualist, Involved in a Particularly Disgraceful Set of Circumstances.

He is Expelled from the St. Louis Hotel and Ordered to Leave Town—Another Story Related.

The Estimate Granted to Fredin & Wilson Gives Opportunity for Testing the Legality of Their Contract.

Dr. Slade, the noted and now notorious medium who has been here for some weeks, succeeded in getting himself into a very awkward position yesterday. He was endeavoring to induce a number of people to come to his room in the Hotel St. Louis when his actions were reported to the police and Detective Hayden investigated. He was found in the room, and after a short examination, he was expelled from the hotel and ordered to leave town. Another story related is that he was expelled from the St. Louis Hotel and ordered to leave town. The estimate granted to Fredin & Wilson gives opportunity for testing the legality of their contract.

The following which was printed very recently in the Chicago Tribune is interesting as having a bearing upon his adventures in Duluth:

"A Jackson, Minn. special to the Chicago Tribune contains the following astounding statements: Dr. Henry Slade, the famous spiritualist and clairvoyant, who is sick here, is said to be a woman. A well-known physician of this place said to the Tribune correspondent today:

"I have seen Slade twice during the last few days. He seemed averse to my placing my hands on him, and frequently said: 'You will not betray me, doctor.' He was finally so averse to receiving my attentions that I left him and another doctor was called. In fact several have been called in one way or another. The doctor who took my place came to me in great excitement, saying Slade was a woman; that he had cried, admitted his sex and told a strange story. I told him to calm himself, observe further and report to me. He paid several visits subsequently and reported the most astounding thing I have ever heard of.

Another doctor said: 'I was called later than Dr. and suspected something from the symptoms I told Slade of my suspicions, and he admitted that he was a woman, begging me not to betray him. I refused to do so, and he said: 'How did Slade come to be here, doctor?' was asked.

"He said he felt that he was growing, and was growing big on his head in the same way."

The correspondent interviewed Slade at his room in the hotel.

"I might say such things when I am sick," said Slade, "in fact I like Satan when I am ill."

"But the doctors say on their own responsibility you are a woman."

"They know me, and say anything about me when I am sick."

"Did you tell Dr. that you are the mother of a child now in Amsterdam, Europe?"

"If I did it was a lie like the rest of what I said. I say I am a liar when I am sick."

Dr. Slade says he is 77 years old. He began his performances as a spiritualist in Chicago thirty-two years ago and was then nearly, if not quite, 30. He had a beardless, pale, yellow hair long and dressed in most remarkable style.

IT CAN BE TESTED.

The Estimate Granted Fredin & Wilson on the Basis of a Test.

The legality of the Fredin & Wilson contract for the Lake Avenue widow will without doubt be tested very shortly. This is as it should be. The amount involved is \$50,000, and they should be given an opportunity to test their claims before being required to put in any additional. As yet they have received no official notice from the city or republicans regarding their contract. It has been called to their attention by the board of public works and a small force of men is still at work. The board are evidently waiting for the council and do not intend taking the responsibility of declaring the contract void and re-advertising. At the last meeting of the council, an estimate of something over \$200 was granted on the contract. This gives an opportunity to test the question. If the contract is illegal no money can be paid on it. The resolution appropriating the money is still in the hands of the mayor. If he approves of it, the matter can be brought up in two ways. Treasurer Voss can refuse to pay the sum, in which case an action of mandamus will be begun which will bring the question involved at once before the court. If he does not refuse and is willing to pay it, any city officer or any citizen can begin injunction proceedings to prevent him, and this will have the same effect of at once opening up the whole question. In either case the legality of the matter can be tried. If the mayor should veto the resolution it would prevent any action, but this is as he, too, is willing to allow the matter to go at once to the courts.

Activity at Bay View Heights.

The manufacturing growth up the bay, together with the location of Bay View Heights, is showing itself in an industry of real estate in Bay View Heights. The Bay View Land company report an increased demand for their stock without feeling dry and as the improvement. The western suburbs will make rapid progress the coming season.

Where is James?

A card was received by The Herald from Caledonia, Canada, this morning inquiring about the whereabouts of one James J. Slade, who is said to be a woman, who is wanted by a dying father. The only signature was "H." The card may have been a poor practical joke, or in good faith.

The Football Club.

The annual meeting of the Duluth Football club was held last evening and officers were elected for the coming year. President, Simon Clark; vice-president, J. E. Myers; secretary, Dr. A. E. Walker; captain, A. S. Wilson; vice-captain, Geo. Wilson; treasurer, Wm. McLean; practice will be begun at once and the first game will be tomorrow afternoon at the old baseball grounds.

A Jam on Kettle River.

At Hell Gate gorge on Kettle river, just below the junction, there is a jam of logs, estimated to contain nearly 1,000,000 feet, extending from the bottom of the river to about forty feet above the surface. At the point where the jam commenced Kettle river is deep and very narrow and the rocky walls are said to be over 120 feet high.

Took Him Up.

The reputation of Cardell's tea is circling the globe, orders coming in not only from Europe, but far India.

A Great Combine.

This is a great age for "trusts"—sugar trust, cordage trust, whisky trust, cotton seed oil trust, beer trust, and numerous other syndicates, to which has been given the slang name of "combinations." Some people think these are all wrong, oppressors, monopolists, and extortioners; others think them beneficial by lowering prices. Then there is the supposed "wheel combine," which troubles the Alliance. There is one great "combine," however, which is in the highest degree beneficial to the public, and here it is:

THE MINISTER'S WORD.

A Strong Expression by the Rev. Mr. Crosby.

Equally Strong Statement From His Sunday School Scholar.

Interesting Letters That Need no Comment—They Both Tell Truth.

The following remarkable correspondence has been sent to this paper for publication by Rev. B. S. Crosby, pastor of the Christian church at Castle, says the Buffalo News.

Rev. Mr. Crosby expressed the belief that the letter from Miss F. B. is a reply would interest and benefit thousands. The letter he received is as follows, omitting the young lady's name:

To Rev. B. S. Crosby:

DEAR SIR: I do not know what impulse me to write to you except that you, too, are interested in the afflictions of humanity. I saw in a paper that you and your wife had found relief, and so I concluded to write you, as you said you would gladly answer any one.

I was born in Cambridge, Mass. I was graduated from the Faverhill High school, four years ago, since which time I have been in poor health. Not that I have been really ill, but since a half year between sickness. I have been declining ever since I graduated, with different physicians. I am better in some ways, worse in others.

First I used to have a terrific ache at the base of the brain, the medical name being, and also up and down the spine, but that went away and gave place to a stomach trouble which the doctor called dyspepsia. I took medicine and dieted for two years. Well, my stomach grew slightly better, but my nerves began to trouble me, and then the doctor said I had nervous dyspepsia, and I have been taking medicine for that until the present time.

But, Brother Crosby, I don't get the help and strength that a young girl in her twenties ought to receive. I have taught school four terms off and on. I like it dearly and it is a struggle for me to give it up, but give it up I must, and apply to my Maker and myself tell me that I must act as my pray.

I have a weak, languid feeling as though I could scarcely move unless I made a mighty effort. Some days I feel quite all right, then again I cannot on my plane stool without feeling dizzy and as though in spite of myself I should fall off.

I met in church, at divine service, and I get conscious that I am to be an hour of spiritual blessing is an hour of unrest. I am confident that it is my nervous system. I am confident that it is my nervous system.

Now, what is your candid opinion of that of mine's? Do you think it is my nervous system? Do you think it is my nervous system?

Mamma seems favorably inclined toward it, but you have used it and know the effect lasting? Or is it merely a stimulant, the effects wearing away as soon as you cease taking the medicine?

You are a stranger to me (in one sense) but we are both members of the same large family, and I know you will be interested as such.

Thanking you for your interest in me who do not enjoy my present situation, I am one, I remain, yours sincerely, K. F. SANDOWN, N. H.

PROTECT OUR BREAD.

The machinery of the law has not been put to work too speedily against the fraudulent use of ammonia and alum in Baking Powders. Both health and the pocket of the people are demanding protection. The legislatures of New York, Illinois and Minnesota have taken this matter of adulteration up, and especially that of Baking Powders. It will be in the interest of public health when their sale is made a misdemeanor in every State in the UNION, and the penalties of the law are rigidly enforced. There is no article of human food more wickedly adulterated than that of Baking Powder.

Dr. Price's Cream Baking Powder is the only pure cream of tartar powder having a general sale that is free from ammonia, alum or taint of any kind of impurity. It makes the sweetest and lightest bread, biscuit and cake that are perfectly digestible whether hot or cold. It costs more to manufacture Dr. Price's than any other baking powder. It is superior to every other known and the standard for forty years.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact, the purity of this ideal powder has never been questioned.

A TERRIBLE TALE.

Geo. Peters, an Explorer, Who Arrived in Duluth This Morning, Reports a Ghastly Discovery.

The Frozen Bodies of Two Men Were Found at Rainy Lake, Near the Little Elk River.

One of Them Was Henry Matthews, of Cincinnati, Ohio—The Other Could Not Be Identified.

George Peters, an explorer, who has been looking up lands near the boundary line of Itasca county on the Canadian side of the river, arrived in the city today from the north. At a point just opposite where the Little Elk empties into Rainy Lake river he came across the bodies of two dead men in a terribly disfigured state. From papers scattered around the fragments of cloth under one of the bodies the name of one of the dead is believed to be Henry Matthews, of Cincinnati, Ohio. The other is unknown. A short distance away from the bodies was a Winchester rifle (No. 287,435) and two small axes. A number of other little trinkets were found in the pack, which is supposed to have belonged to Matthews. The Canadian authorities were notified and have probably interred the remains by this time. There was a small sum of money, about \$12, on one of the men, but no jewelry, excepting two ordinary silver watches. As far as could be ascertained from the remains, they were those of men about 30 to 35 years of age. There is no other solution of the cause of death than that they were frozen and perished in one of the cold storms of the first part of the year. Peters lives at Saginaw, Mich., and passed through here en route for home. He is well known here and there is no reason to doubt the truth of his terrible tale.

District Court.

Before Judge Brown this morning the case of Edward Farrell vs. Brown Bros. was brought up and judgment was ordered for the claimant amounting to \$84.39, and for the complainants in \$502.64. The case of B. F. Moore vs. John McKinley is on trial. The action is based upon a complaint in title to certain valuable lands and certain agreements pertaining thereto.

Before Judge Ensign the divorce case of Lena C. Chulson vs. John P. Chulson came up and a divorce was granted the plaintiff on the grounds of cruelty and drunkenness of defendant. An order allowing the plaintiff the custody of a 7-year-old child was issued and a limited amount of alimony and costs of the action were also granted. The defendant did not appear. The case of Geo. M. Kidd vs. Hazen & Hazen, was ordered continued. The case of H. E. Long vs. J. D. Howard was called up and is still on trial.

Building Permits.

Building permits have been issued by Inspector Robinson as follows:

The Weather.
U. S. WEATHER BUREAU, DULUTH, MINN.,
April 21.—The storm which was central over
Minnesota yesterday, moved over Lower Michigan
and has been accompanied by heavy rains, north-
west (at Cincinnati) 1.25 inches and at "Cross" 1.50
inches. It is still raining in a number of places in the
storm's line, and snow at La Crosse and North
Platte, Neb.
Slight changes in temperature have taken
place. It is 62° at Cincinnati and 75° at Duluth.
These are the warmest yet for the season.
The thermometer showed 62° at Duluth, which
here yesterday, but for several days, reaching
41° 2, but fell during the night.

DISCRIMINATING RATES.
The interstate commerce commission
has struck another blow at the railroad
discrimination which has built up the
wholesale trade in the Twin Cities at the
expense of other points in the North-
west which enjoy a better geographical
position. The commission has just filed
a decision in the well known case of E.
M. Raworth, the wholesale grocer of
Fargo, against the Northern Pacific, the
Union Pacific and other railroads. The
case involves the question of greater
rates on sugar from San Francisco to
Fargo than for the longer distance to St.
Paul. The rates on sugar from San
Francisco to St. Paul through Fargo is
65 cents per ton, and the company has
been charging Raworth 97 cents, though
the distance from San Francisco to
Fargo is 210 miles less than to St. Paul.
The company adds to the St. Paul rate of
65 cents the rate between St. Paul and
Fargo, which is 32 cents.

The decision puts a peremptory veto
on this state of affairs, asserting that the
"long and short haul rule" of the inter-
state commerce act was intended to
maintain and promote, and not to de-
stroy or neutralize, natural conditions
advantages resulting from location; and
competition at St. Paul with sugar from
the East reined in New York, although
necessitating the prevailing low rates to
St. Paul on sugar from the West reined
at San Francisco, does not justify the
greater charge on the longer haul than to
St. Paul. The roads will be required
to be ordered to readjust their rates in ac-
cordance with the decision, and failure
to do so will result in the carrying of
the case into the United States courts
with the interstate commission as com-
plainants.

There is no city in the country that is
more interested than is Duluth in the
settlement of the question of discrimi-
nating freight rates. The wholesale
merchants of St. Paul and Minneapolis
have prospered and grown wealthy in
past years at the expense of Duluth, by
reason of rates discriminating against
this city and in their favor. If the "long
and short haul" rule of the statute were
strictly enforced, Duluth would receive
the full benefit of the natural advan-
tages of its superior location geographi-
cally. A freight tariff based upon a
fixed rate per mile would place
Duluth wholesalers in a posi-
tion to defy the competition of
St. Paul and Minneapolis merchants in
the Northwest, and if the railroads were
compelled to adjust their rates to con-
form to the real intent of the interstate
commerce law there would be no reason to
complain upon their score.

It is true that in recent years the roads
have largely abandoned the discrimina-
tion which they formerly practiced
against Duluth, but there are still many
classes of rates that should be amended
in order that this city should obtain its
rights. Fargo is entitled to congratula-
tion upon securing the favorable deci-
sion referred to and being thus relieved
from the unjust discrimination to which
its merchants have been subjected.

A GOLDEN OPPORTUNITY.
A Sault Ste. Marie dispatch says that
"in the interest of perfect Republican
harmony" the two daily papers there
have been consolidated. The dispatch
adds: "It makes the Republicans here
happy and removes the last trace of local
discord."
Here is a suggestion to the proprietors
of the two morning papers in Duluth,
both claiming to be "Republican organs"
and representing different factions of the
party. Why should not the newly-vested
proprietor of the News, for instance,
prove the great pacemaker of the Re-
publican party in Duluth? If the con-
solidation of the two morning papers
will remove the last trace of local dis-
cord, it should be an easy matter for
him to bring about that desirable and
happy result by setting aside another
portion of his wealth for the purchase
of the Tribune. Possibly the Tribune is
not for sale, but it must be remembered
that almost any man will sell his prop-
erty if offered sufficient monetary in-
ducements. For the wealthy young
vested proprietor of the News this
should be no obstacle. He may not have
a bank behind him, but a young man
who has the courage to assume the finan-
cial risks attendant upon the publica-
tion of an evening morning

paper must surely have a bank account
large enough to withstand the expense of
purchasing another. The thought of
being thus able to remove all traces of
discord in the local Republican ranks
and to unite the warring factions in one
happy family would itself be ample re-
ward for the expenditure of so much
money by one who ever labors earnestly
and unselfishly for the party's good and
with no thought of the loaves and
fishes" at the party's disposal. The
Herald wants to see harmony in the Re-
publican ranks, and it trusts that this
splendid opportunity to secure it will
not be overlooked by the newly vested
proprietor of the News.

The last number of Bradstreet's con-
tains the following report on business in
Duluth: "Trade presents a healthy
tone. Collections are improved. Lum-
ber is in good demand with prices firm
and stocks low. Reports from the farm-
ing districts are to the effect that the
spring is backward. Navigation is prac-
tically open at this point. Banks report
a good supply of funds." This tells in
succinct form the story of Duluth's pros-
perity today, and all indications point
to still greater prosperity as the year
advances.

The New York Tribune is appealing to
the management of Central Park to
allow elephant riding in that popular
resort. Since Dr. Parkhurst told his
story in court, the desire to "see the ele-
phant" appears to have spread very
rapidly in New York, but no one ever
dreamed that the staid old Tribune
would catch the disease.

The New York Evening Post says
with much feeling and force: "We say
with deliberation that history may be
searched in vain for a situation so full of
deep, burning shame and humiliation as
that in which New York sits today, under
the domination of three or four igno-
rant men of foreign birth."
The people of the entire country will
learn with deep regret of the death of
Miss Amelia B. Edwards, the distin-
guished lecturer and writer. Miss Ed-
wards visited the Northwest about three
years ago, and her lectures on the exca-
vations that are being made in Egypt
were very interesting.

The rush of Republicans for the Nel-
son band wagon bore a strong resem-
blance to the rush of land boomers to
the Sisseton reservation. And the story
which the returning hundreds tell are
very similar in tenor in both cases. The
results did not come up to the prospect.

Governor Russell, of Massachusetts,
has been warned that unless he quits
smoking he will lose his voice. It is
strange that puffing vile weeds has no
such effect upon the average war
heeler, but his breath is usually strong
enough to offset the effect of the smoke.

The St. Paul Globe announces that it
will soon publish a series of articles tel-
ling what it does not know about the
wheat business. Of course the Globe
agrees with the Erwin-Moore minority
report slandering the Duluth elevator
companies and grain shippers.

The Republican bosses in New York
state are said to be anxious to meet
President Harrison for the nomination,
but they don't know how to do it. They
are probably the originators of the latest
story that Blaine would accept the nom-
ination.

The endorsement of Matt Quay does
not reflect much credit upon the Repub-
licans of Pennsylvania. Perhaps they
do not call it an endorsement, but a resolu-
tion returning thanks for his services
look very much like approving them.

son band wagon bore a strong resem-
blance to the rush of land boomers to
the Sisseton reservation. And the story
which the returning hundreds tell are
very similar in tenor in both cases. The
results did not come up to the prospect.

Governor Russell, of Massachusetts,
has been warned that unless he quits
smoking he will lose his voice. It is
strange that puffing vile weeds has no
such effect upon the average war
heeler, but his breath is usually strong
enough to offset the effect of the smoke.

The St. Paul Globe announces that it
will soon publish a series of articles tel-
ling what it does not know about the
wheat business. Of course the Globe
agrees with the Erwin-Moore minority
report slandering the Duluth elevator
companies and grain shippers.

The Republican bosses in New York
state are said to be anxious to meet
President Harrison for the nomination,
but they don't know how to do it. They
are probably the originators of the latest
story that Blaine would accept the nom-
ination.

The endorsement of Matt Quay does
not reflect much credit upon the Repub-
licans of Pennsylvania. Perhaps they
do not call it an endorsement, but a resolu-
tion returning thanks for his services
look very much like approving them.

The Russian emperor is uneasy be-
cause his eldest son, the heir to the
throne, shows no disposition to marry,
and he is about to send him to this coun-
try. Here is a chance for an American
girl to draw a future king.

A St. Louis man was struck the other
day by lightning which was attracted by
a horseshoe above his door. Hereafter
he will not be an admirer of the well-
known song, "Never Take the Horse-
shoe From the Door."

The "Can't Be Worse" is the name of
a dramatic company just organized in
Rochester, N. Y. Surely this must be a
reorganization of the "comedy company"
that played in Duluth on a recent Sat-
urday night?

David B. Hill has not made much of
an impression in the senate, but he has
impressed the country with the fact that
he is the worst specimen of what polit-
ical partisanship can produce.

It is said that Napoleon was a very
bad penman. He knew how to use a
sword, however, and in his case the pen
was not mightier than the sword.

Col. W. W. Dudley, of "blocks of five"
notoriety, intimates that he will oppose
President Harrison's re-election. This is
good luck for the president.

The New York legislature has adopted
a report exonerating Judge Maynard. It
should now whitewash Dave Hill, who
was the principal in the crime.

The undertakers will be interested in
the statement that there are now 2,877,
792,440 cigarettes produced in a year's
work of the factories.

The Chicago Inter Ocean says: "In
the year 1893 Chicago will be the Mecca
of the civilized world." Just at present
it is the Gomorrah.

Duluth is pretty lively now, and with
navigation just opening the prospect is

ASSESSMENT ROLL.
CITY OF LAKESIDE.
Notice is hereby given that whereas a contract
has been let for constructing a sanitary sewer
along the northern line of the city of Lakeside,
the expense of such improvement to be assessed
to each lot or tract of land fronting on such im-
provement has been determined by the city
council of said city.
Now, therefore, said city council of Lakeside
will at the council chamber in said city at
